neurodegenerative diseases Currently there is no known causal connection between concussion repetitive head impact exposure and neurodegeneration although this research is also still in its infancy What is clear is that a concussion prevention and safety should be paramount in sport and in society b concussion management should begin immediately and should include clinical domains and c research on concussion and repetitive head impact exposure must continue to move forward Keywords concussion mild traumatic brain injury clinical domains repetitive head impact exposure chronic traumatic encephalopathy safety **Strategic Planning in ARL Libraries** Association of Research Libraries.
