A Student's Introduction To Geographical Thought Theories Philosophies Methodologies:

A Student's Introduction to Geographical Thought Pauline Couper, 2014-12-01 This is a busting text is an enormously accessible account of the key philosophical and theoretical ideas that have informed geographical research. It makes abstract ideas explicit and clearly connects it with real practices of geographical research and knowledge. Written with flair and passion, *A Student's Introduction to Geographical Thought* explains the key ideas: scientific realism, anti-realism, and idealism; positivism, critical rationalism, Marxism, and critical realism; social constructionism and feminism; phenomenology and post-phenomenology; postmodernism and post-structuralism; complexity; moral philosophy. Uses examples that address both physical geography and human geography. Use a familiar and real world example: the beach as an entry point to basic questions of philosophy, returning to this to illustrate and to explain the links between philosophy, theory, and methodology. All chapters end with summaries and sources of further reading, a glossary explaining key terms, exercises with commentaries, and web resources of key articles from the journals *Progress in Human Geography* and *Progress in Physical Geography*. *A Student's Introduction to Geographical Thought* is a completely accessible student A-Z of theory and practice for both human and physical geography.

A Student's Introduction to Geographical Thought Pauline Couper, 2015 An enormously accessible account of the key philosophical ideas that have informed geographical research. A complete student guide to the theories, methodologies, and histories of both human and physical geography.

Urban Mountain Waterscapes in Leh, Indian Trans-Himalaya Judith Müller, 2022-11-16 The city of Leh is located in the high mountain desert of Ladakh in the Indian Himalayas and access to water has always been limited there. In recent years, the town has experienced high rates of urbanisation on the one hand and tourist numbers have increased exponentially on the other, which has implications for the water supply of the people living there. Through several years of on-site research, challenges on

various levels were documented and current governance approaches were analysed This research forms the basis for future approaches to sustainable development **Geography and Geographers** Ron Johnston, James Sidaway, 2015-12-22

Explores the relationship between human and physical geography All chapters updated in the new edition to reflect new literature and changes in the discipline Chapter One systematically considers representations of geographical thought The closing chapter develops an explicit argument about what has made human geography distinctive Draws on a wide reading of the geographical literature produced during a fifty year period characterised by both growth in the number of academic geographers and substantial shifts in conceptions of the discipline s scientific rationale Territories David

Storey, 2024-07-30 Territories are more than simply bounded spaces they reflect the ways in which we think of geographic space Territoriality or laying claim to territory can be seen as the spatial expression of power with borders dividing those inside from those outside The book provides an introduction to the concept of territory the ways in which ideologies and social practices are manifested in space the deployment of territorial strategies and the geographical outcomes of these This revised and updated third edition focuses on both macro scale examples and those less obvious micro scale ones and it explores how territorial strategies are used in the maintaining of power or as a means of resistance Throughout the book key questions emerge concerning geographic space Who is allowed to be in particular spaces and who is excluded or discouraged from being there How are territorial practices utilised in conflicts concerned with socio political power and identity and how are ideologies transposed onto space Written from a geographical perspective the book is interdisciplinary drawing on ideas and material from a range of academic disciplines including history political science sociology international relations and cultural studies Theoretical underpinnings are supported by a variety of historical and contemporary examples drawn from a range of geographic contexts Rural Geographies Richard Yarwood, 2023-04-28 Rural Geographies provides a critical

contemporary and accessible introduction to rural change by using geographical ideas to understand current issues affecting the countryside The book discusses how the countryside has been studied by geographers across a range of different scales from village community to the global countryside Each chapter provides a concise and well illustrated introduction to a key theme in rural geography using current literature and contemporary examples The book is divided into four sections that cover rural contexts changes contests and cultures The volume takes a global perspective but is largely centred on the Global North reflecting the tradition of scholarship in rural geography Rural Geographies is driven by thinking in human geography It reflects how major paradigmatic changes in the discipline have impacted and have been informed by the sub discipline of rural geography The aim is to introduce key ideas and concepts that will teach students the critical skills necessary to analyse rural issues themselves The text will be a valuable resource for undergraduate students studying rural geography and rural studies Your Human Geography Dissertation Kimberley Peters, 2017-02-09 An undergraduate dissertation is
