Development A Topical Approach maintains the student friendliness that has been the hallmark of Feldman's other development textbooks. It is rich in examples and illustrates the applications that can be derived from the research and theory of lifespan developmentalists. It pays particular attention to the applications that can be drawn from theory and research in the field. To optimize student learning and to provide instructors with maximum flexibility, the book uses a modular approach. Consequently, rather than facing long potentially daunting chapters, students encounter material that is divided into smaller, more manageable chunks/modules. Presenting material in small chunks represents a structure that research long ago found to be optimum for promoting learning. This book is available with MyDevelopmentLab, which includes a full eText, videos, self-tests, flashcards, and MyVirtualChild, the interactive simulation which allows you to raise a virtual child from birth to age 18 and monitor the effects of your parenting decisions. MyDevelopmentLab does not come automatically with the text, so please be sure you check to ensure that an access code is included before placing your order. The book by itself has a different ISBN number than the book MyDevelopmentLab. You can also purchase a MyDevelopmentLab access code online at www.mydevelopmentlab.com. A Topical Approach to Life-Span Development with Connect Access Card John Santrock, 2015-03-19. Connect with John Santrock's Topical Approach to Lifespan Development and connect with success. Informed and driven by research. At McGraw Hill, we have spent thousands of hours with you and your students working to understand the key needs and concerns you face in the Human Development course. The most common topics raised include managing the vast amount of content inherent to a Lifespan course and ensuring the dependability of the assigned material; is it current and accurate? The result of this research is John Santrock's A Topical Approach to Lifespan Development, 7e. Santrock ensures students complete and understand the assigned material in a number of ways. Santrock's hallmark Learning Goals pedagogy provides a comprehensive roadmap to the text material, clearly pointing out the core concepts fundamental to students' learning and performance. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need when they need it and how they need it, so that your class time is more engaging and effective. McGraw Hill's LearnSmart increases students' efficiency in studying by identifying what they know and don't know and provides immediate remediation, helping them to learn the material they are struggling with. The connections theme continues in the 7th edition, showing students the different aspects of lifespan development and helping them to better understand the concepts. This recurring theme of connections—Developmental Connections, Topical Connections, Connecting Development to Life, Connecting with Careers, and Connections through Research—ties together concepts from across chapters to reinforce the learning process and connect the material to students' everyday lives and future aspirations.

McGraw Hill's Milestones video and assessment program helps bring the course material to life so your students can witness real children developing over time. And of course all of this material is informed by our unique board of expert contributors, who are experts in developmental psychology, who ensure the material is as accurate and up to date as possible.
