A Training Manual For Sweet Sorghum:

Industrial Crops Von Mark V. Cruz, David A. Dierig, 2014-11-17 The volume on Industrial Crop Breeding will be part of the series Handbook of Plant Breeding This volume will focus on the emerging area of plant breeding for sustainable production of transportation fuels and bio based products using the current advances in the field The book is scheduled to consist of a total number of 30 chapters divided into four sections The sections will emphasize crops being considered for different challenge areas including oil crops for biodiesel sugar starch and cellulosic crops for biofuel crops for bio products and issues and future prospects A chapter introducing the first three sections will also be included Outstanding scientists for each crop species are proposed as senior authors who may invite co authors to contribute part of a chapter to provide additional expertise or perspective The proposed authors will represent various national and international institutions to get a more diverse view on the topic and somehow get a global view on the common issues that researchers on industrial crops are facing The book will comprise primarily of specific issues available germplasm breeding techniques and potential geographical areas of production pertaining to individual crops being considered for industrial uses We hope to encourage the proposed authors of new crops to provide an estimate of the crop readiness for commercial development and discuss the limitations This book will be of interest and envisioned to serve as an updated reference to researchers in both academic and industrial setting to students and teachers of plant breeding and to policy makers who are looking for alternative solutions to dependency on imported petroleum products

Biofuel Crops Bharat P. Singh, 2013 Providing comprehensive coverage on biofuel crop production and the technological environmental and resource issues associated with a sustainable biofuel industry this book is ideal for researchers and industry personnel Beginning with an introduction to biofuels and the challenges they face the book then includes detailed coverage on crops of current importance or with high future prospects including sections on algae sugar crops and grass oil and forestry species The chapters focus on the genetics breeding cultivation harvesting and handling of each crop

Socio-Economic Impacts of Bioenergy

Production Dominik Rutz, Rainer Janssen, 2014-02-23 Around the world many countries are increasing efforts to promote biomass production for industrial uses including biofuels and bio products such as chemicals and bio plastic Against a backdrop of lively public debate on sustainability bioenergy yields both positive and negative impacts upon a variety of environmental and socio economic issues These include property rights labor conditions social welfare economic wealth poverty reduction and more This book discusses the issues and impacts of bioenergy taking into account the local and regional framework under which bioenergy is produced touching upon educational level cultural aspects the history and economies of the producing countries and an array of policies including environmental and social targets The book surveys and analyzes global bioenergy production from a number of perspectives The authors illustrate the complexity of interrelated topics in the bioenergy value chain ranging from agriculture to conversion processes as well as from social implications to

environmental effects It goes on to offer insight on future challenges associated with the expected boom of a global bio based economy which contributes to the paradigm shift from a fossil based to a biomass and renewable energy based economy The expert contributors include researchers investors policy makers representatives from NGOs and other stakeholders from Europe Africa Asia and Latin America Their contributions build upon the results of the Global Bio Pact project on Global Assessment of Biomass and Bio product Impacts on Socio economics and Sustainability which was supported by the European Commission in its 7th Framework Program for Research and Technological Development conducted from February 2010 to January 2013 The book benefits policy makers scientists and NGO staffers working in the fields of agriculture forestry biotechnology and energy **Agriculture Handbook** ,1981 Set includes revised editions of some issues
