

PERRY MESA

A VISITOR GUIDE

SCOTT WOOD, TONTO NATIONAL FOREST, 1999

Travel with us to the windswept grasslands of the middle Agua Fria to camp under the stars, pound your kidneys into *paste* on some of the roughest, rockiest roads in Arizona, and visit the breathtaking cliff edge ruins and countless petroglyphs of **Perry Mesa**.

The primary access to Perry Mesa begins at the **Bloody Basin** turnoff from I-17, north of Black Canyon City. From there you will follow the Bloody Basin Road (aka Forest Road 269) east across the Agua Fria River to Forest Road 14 on the Tonto National Forest, where you will turn south along the back side of Perry Mesa to the edge of **Brooklyn Basin**. One of the best camp sites in the area is located just off the road, on the edge of the mesa overlooking the basin (no facilities, of course). From there you can easily visit **Squaw Creek Ruin** and its petroglyphs (including the former Archeology Month poster child, the famous **Red Deer of the Tonto**), **Pueblo Pato Ruins** with their petroglyphs (including the **infamous duck petroglyphs** and a collection of mythological humanoids), **Baby Canyon Ruin** and its petroglyphs (including a broad array of abstract and geometric forms), and whatever else suits our fancy and stamina.

A few words of caution. Once you get off the relatively well maintained Bloody Basin Road (FR 269), the local roads tend to be rough and rutted much of year (that is when they are not the uniquely nasty mud that they turn into when it rains), and there is the perennial problem of fording the Agua Fria. In other words, you would be advised to come in at least a pickup or some other utility or high clearance vehicle. Like most field trips on the Tonto, **this is not for the faint hearted or low clearanced**. Beyond the camp site, visiting most of the ruins is an adventure in rough country four wheeling. Petroglyph lovers should be prepared for scrambling up and down (actually, down and up) some very steep and rocky basalt cliffs that frequently overlook a drop of 1000 feet or more. **If you have acrophobia, have someone else show you their slides when you get back**. Because of these minor considerations, and the fact that rain may shut your whole trip down by turning large parts of the mesa into a sea of mud that will be expensively damaged by sucking your vehicle into it, it is always advisable to call the Cave Creek Ranger District and/or the BLM Phoenix Area Office ahead of time to check the conditions of the roads and the river.

The Perry Mesa Locality

Perry Mesa is actually a series of basalt-capped mesas and canyons along the Agua Fria River that resulted from the relatively gentle eruption of the shield volcano known today as Joe's Hill (the mesa was named for William Perry, who ran cattle there from 1880 to 1929 when he moved to the Buckeye Valley to found the "town" of Perryville; it's
