**Essential Revision Notes in Medicine for Students** Philip A. Kalra, 2006 Designed to help medical students through their exams Built around the successful Essential Revision Notes for MRCP this title focuses on what is essential learning for medical undergraduates and gives readers an all round knowledge of medicine at this level Blueprints Ophthalmology Thomas E. Bournias, 2005 Designed as a quick read for both students on an ophthalmology rotation and others who want to know more about the specialty Blueprints Ophthalmology covers the essentials of ophthalmology that every practitioner will need to know Pocket sized and practical this book covers the most common conditions students are likely to encounter It focuses on the essential content students need to know during a rotation allowing for a fast easy read The text emphasizes pathophysiology diagnosis and treatment Blueprints Ophthalmology explains the fundamental anatomy and concepts of ophthalmology with separate chapters covering disorders by causes or conditions It provides the reader with a broad understanding of the structure and function of the eye as well as how to evaluate a patient s condition An eight page insert contains full color photographs that enhance the reader s knowledge Twenty five multiple choice and matching review questions are included to help students test their understanding of the subject The book also features valuable appendices on career and residency opportunities a handy reference list of commonly prescribed medications and a glossary Blueprints Ophthalmology is perfect for medical students Physician assistants nurse practitioners and related health professionals will also find this book valuable Lecture Notes: Ophthalmology Bruce James, Chris Chew, Bron, 2007-11-06 Beautifully illustrated throughout Lecture Notes Ophthalmology concentrates on the most common eye problems that health practitioners are expected to diagnose and manage Notes on Comparative Anatomy: a syllabus of a course of lectures, etc William Miller ORD, 1871 **The Lancet**, 1884 **Lecture Notes on Ophthalmology** Bruce James, Chris Chew, Anthony J. Bron, 1997-01 Lecture Notes in Ophthalmology is a core text designed to meet the needs of medical students junior doctors optometrists and opticians who need a concise overview of this important subject Lecture Notes on Ophthalmology begins with a brief introduction to the structure and function of the eye which is integrated with the clinical science With 17 chapters and now heavily illustrated with 50 full colour line diagrams and more than 100 clinical photographs this book concentrates on the most common eye problems that students and doctors can expect to diagnose and manage Because the authors give each condition a highly structured description to facilitate easy access to information they ensure therefore that the book is ideal for revision **Elegant Anatomy** Marieke M.A. Hendriksen, 2015-01-27 In Elegant Anatomy Marieke Hendriksen offers an account of the material culture of the eighteenth century Leiden anatomical collections which have not been studied in detail before The author introduces the novel analytical concept of aesthesis as these historical medical collections may seem strange and undeniably have a morbid aesthetic yet are neither curiosities nor art As this book deals with issues related to the keeping and displaying of historical human remains it is highly relevant for material culture and

museum studies cultural history the history of scientific collections and the history of medicine alike Unlike existing literature on historical anatomical collections this book takes the objects in the collections as its starting point instead of the people that created them

**Ophthalmology** Bruce James,Anthony Bron,Manoj V. Parulekar,2016-11-30 Highly Commended in Internal medicine in the 2017 BMA Medical Book Awards Highly illustrated comprehensive and accessible Ophthalmology Lecture Notes is the ideal reference and revision guide to common eye problems and their diagnosis and management Beginning with overviews of anatomy history taking and examination it then covers a range of core ophthalmic conditions including a new chapter on paediatric ophthalmology The content has been thoroughly updated and includes Over 200 diagrams and photographs A range of core clinical cases in chapter 20 demonstrating the clinical context of key conditions Learning objectives and summary of key points in each chapter Ophthalmology Lecture Notes is perfect for developing knowledge for clinical practice or revision in the run up to examinations and uses a systematic approach to provide medical students and junior doctors with all the tools they need to manage clinical situations It is also useful for optometrists in training helping them develop a sound understanding of clinical ophthalmology

**The Anatomy Museum** Elizabeth Hallam,2008 Anatomy museums around the world showcase preserved corpses in service of education and medical advancement but they are little known and have been largely hidden from the public eye Elizabeth Hallam here investigates the anatomy museum and how it reveals the fascination and fears that surround the dead body in Western societies Hallam explores the history of these museums and how they operate in the current cultural environment Their regulated access increasingly clashes with evolving public mores toward the exposed body as demonstrated by the international popularity of the Body Worlds exhibition The book examines such related topics as artistic works that employ the images of dead bodies and the larger ongoing debate over the disposal of corpses Issues such as aesthetics and science organ and body donations and the dead body in Western religion and ritual are also discussed here in fascinating depth The Anatomy Museum unearths a strange and compelling cultural history that investigates the ideas of preservation human rituals of death and the spaces that our bodies occupy in this life and beyond
