This essential companion for aspiring secondary English teachers has been extensively reworked to help students meet the very latest professional and academic standards while also equipping them with the knowledge and skills they will need for the beginning of their teaching career. Focusing on the essentials needed to be a successful English teacher, the authors combine subject knowledge with ideas, examples and approaches for creating an effective, vibrant learning environment and real examples of lesson plans and schemes of work. Each chapter clearly links practice to theoretical and critical perspectives on teaching, making this an ideal text for students working towards M-level credits or a Masters in Teaching and Learning. There are also brand new chapters which explore in greater depth specific areas of contention and challenging issues including Diversities including global perspectives on teaching English. The application and implications of using ICT. Multi-agency provision in personalising learning. Research methodologies. Transition from the training year and the first year as a teacher. The latest requirements for Qualified Teacher Status are clearly signposted throughout and activities at the end of each chapter help to reinforce knowledge and encourage reflection. Written by a team of highly respected authors, this new edition should be on every secondary English student's bookshelf.

Professional Development for Primary Teachers in Science and Technology Marc J. de Vries, Hanno van Keulen, Sylvia Peters, Juliette Walma van der Molen, 2012-01-01. This book presents the research output of the Dutch project VTB Pro, an internationally oriented project that aimed at providing primary school teachers with the knowledge, abilities and attitudes that are necessary to implement science and technology education in their classes. An introductory chapter by Wynne Harlen and Pierre Lena positions this project in the international context. From the Foreword by Dr Michel Rocard: 'I have been pleased to discover the VTB Pro three years project carried in the Netherlands. Broadening technological education in primary school. Focusing on professional development of teachers and presenting first-hand testimonies and research, the present book demonstrates how to deal with this issue so critical for a renewed pedagogy. With proper methods, the knowledge of science, the interest in science and technology, the pedagogical skills can all be improved among teachers who often have no or little affection for science.'
