Handbook of the Madras Presidency John Murray (Firm), Edward Backhouse Eastwick, 1879 *Highlander* John M. Glen, 2014-07-15 and racial justice during a critical era in southern and Appalachian history This volume is the first comprehensive examination of that extraordinary and often controversial institution Founded in 1932 by Myles Horton and Don West near Monteagle Tennessee this adult education center was both a vital resource for southern radicals and a catalyst for several major movements for social change During its thirty year history it served as a community folk school as a training center for southern labor and Farmers Union members and as a meeting place for black and white civil rights activists As a result of the civil rights involvement the state of Tennessee revoked the charter of the original institution in 1962 At the heart of Horton s philosophy and the Highlander program was a belief in the power of education to effect profound changes in society By working with the knowledge the poor of Appalachia and the South had gained from their experiences Horton and his staff expected to enable them to take control of their own lives and to solve their own problems John M Glen s authoritative study is more than the story of a singular school in Tennessee It is a biography of Myles Horton co founder and long time educational director of the school whose social theories shaped its character It is an analysis of the application of a particular idea of adult education to the problems of the South and of Appalachia And it affords valuable insights into the history of the southern labor and the civil rights movements and of the individuals and institutions involved in them over the past five decades **Integrating Engineering and Science in Your Classroom** Eric Brunzell, 2012 From the very first day you use them the design challenges in this compendium will spur your students too to jump right in and

engage throughout the entire class The activities reinforce important science content while illustrating a range of STEM skills The 30 articles have been compiled from Science and Children Science Scope and The Science Teacher NSTA s journals for elementary through high school Integrating Engineering and Science in Your Classroom will Excite students of all ages with activities involving everything from light sabers and egg racers to prosthetic arms and potatoes Apply to lessons in life and environmental science Earth science and physical science Work well in traditional classrooms as well as after school programs Next time you need an engaging STEM activity you ll be glad you have this collection to help you blend meaningful and memorable experiences into your lessons As Editor Eric Brunsell promises By exposing students to authentic engineering activities you can help students uncover the profession that makes the world work
