and Corrected, with a Commentary in Explanation of the Practical Purpose of the Text: by Oð Tıç, F.R.S., Etc. [i.e. L. Howard]. Homer,1843 **Fenelon's Treatise on the Education of Daughters (English Edition)** François de Salignac de La Mothe Fénelon,Thomas Frognall Dibdin,2015-03-10 The Translation of the following Work was undertaken at the request of Mr Ruff the Publisher who wished me to paraphrase what I thought might more particularly interest and edify the English reader It is dedicated by the Publisher to her Grace the Duchess of Bedford and he is anxious that it may be found worthy of her patronage The original French work was first published in 1688 and the earliest English translation appeared in 1707 This translation which was by Dr Hickes I have never seen In the year 1797 another anonymous English translation was printed at Hull in a duodecimo volume In this performance there is so close an adherence to the idiom of the French language that almost every page abounds with gallicisms It is not however entirely destitute of merit but it appears on the whole to have been hastily executed for the purpose of ensuring a cheap and extensive sale The present translation is offered to the public with a full conviction of its inadequacy to give a just idea of the beauty and force of the original The author of Telemaque and De l Education des Filles appears on a comparison of these two performances very unlike the same writer In the former his periods are flowing and luxuriant in the latter they are sententious and logical and nearly as difficult to clothe in an English dress as those of the philosophical Tacitus It will be seen therefore that a literal translation has not been attempted and a still greater deviation will be observable from a wish to distinguish it from the translation of 1797 Whether this has always been done for the better the reader will determine for himself The Original Chapter on religious studies has been submitted to those whose opinions matured by experience I have been anxious to obtain and it has received the sanction of their approbation If the Work fail of success it will not be from the want of spirit in the Publisher for it is accompanied with considerable beauty of type and paper and elegance of ornament The design is every way worthy of the ingenious artist by whom it was executed and who has long been known to the world from the taste and fidelity of his pencil The engraving by Mr Freeman will convince the public that he requires only to be known to be more generally encouraged
