DS Performance Strength & Conditioning Training Program for Football, Agility, Advanced D. F. J. Smith, 2016-12-02 A 12-week strength conditioning training program for Football focusing on agility conditioning for an advanced level. DS Performance have created an exclusive series of sport-specific strength conditioning training programmes that have underpinning evidence-based training methods which have been put in place to improve your performance for all ages and abilities. All programmes have been designed to develop each specific performance variable through the progression of intensity and volume. Along with your training program, this book contains a supporting guide to mobility training. This guide uses myofascial release, static stretching, and activation work to mobilise the major body parts used in training. It has been put in place to increase your mobility; it can also be used to support your warm-ups and cool-downs. To aid your training, we also included a series of tables to create your lifting percentages. These tables will help you work out your working percentages from 40% to 95%. The tables are broken down into 5% loads, all in kilograms, ranging from 10kg to 300kg. All programmes by DS Performance are 12 weeks in duration; we recommend that you do two six-week training blocks with a de-loading week between the two training blocks. This will allow the body to recover, prepare you for the second training phase, and reduce any risk of injury.
