Anthem Guide Key

Wai-Chung Ho

Anthem Guide Key:

Leadership Education and Training (LET) 1, 2001 Culture, Creativity, and Music Education in China Wai-Chung Ho, 2023-04-07 Ho's book explores music education in China and how creativity education reforms and social transformation can be enabled through music. The essential elements of music discussed include perception and creativity sources and stimulation and the integration of musical creativity in diverse cultures and participation. It focuses on three Chinese cities: Changsha and Hong Kong Special Administrative Region of China, which have creative industries, and Shijiazhuang, which has cultural industries. Readers will gain insights into the introduction of creativity into the Chinese education system through music, particularly during the pandemic. The author analyses official documents, selected music textbooks adopted by schools, questionnaire surveys, and in-depth interviews with both students and teachers. These interviews reveal the underbelly of the dilemmas of introducing creativity into schools through music education. The volume will be of interest to those keen to increase creativity in teaching through music and researchers in the fields of creativity and music education. It will also interest students undertaking Chinese teacher education or music.

Globalization, Nationalism, and Music Education in the Twenty-First Century in Greater China Wai-Chung Ho, 2025-10-01 Globalization, Nationalism, and Music Education in the Twenty-First Century in Greater China examines the recent developments in school education and music education in Greater China: Mainland China, Hong Kong, and Taiwan, and the relationship between and integration of national cultural identity and globalization in their respective school curriculums. Regardless of their common history and cultural backgrounds, in recent decades these localities have experienced divergent political, cultural, and educational structures. Through an analysis of the literature, official curriculum documents, approved music textbooks, and a survey questionnaire, and in-depth interviews with music teachers, this book also examines the ways in which policies for national identity formation and globalization interact to complement and contradict each other in the context of music education in respect to national and cultural values in the three territories. Wai Chung Ho's substantive research interests include the sociology of music, China's education system, and the comparative study of East Asian music education. Her research focuses on education and development with an emphasis on the impact of the interplay between globalization, nationalization, and localization on cultural development and school music education.

Clavier, 1983 **The SAR Magazine** Sons of the American Revolution, 1976 The Star-Spangled Banner United States. Congress. House. Committee on the Judiciary, United States. Congress. House.
