Antiquity 3rd Edition:

Bishops under Threat Sabine Panzram, Pablo Poveda Arias, 2023-03-20 The late antique and the early medieval periods witnessed the flourishing of bishops in the West as the main articulators of social life This influential position exposed them to several threats both political and religious Researchers have generally addressed violence rebellions or conflicts to study the dynamics related to secular powers during these periods They haven t paid similar attention however to those analogous contexts that had bishops as protagonists This book proposes an approach to bishops as threatened subjects in the late antique and early medieval West In particular the volume pursues three main goals Firstly it aims to identify the different types of threats that bishops had to deal with Then it sets out to frame these situations of adversity in their own contexts Finally it will address the episcopal strategies deployed to deal with such contexts of adversity In sum we aim to underline the impact that these contexts had as a dynamiting factor of episcopal action Thus the episcopal threats may become a useful approach to study the bishops relationships with other agents of power the motivations behind their actions and last but not least for understanding the episcopal rising power

European Vision and the South Pacific Third Edition Bernard Smith, 2022-10-05 Bernard Smith 1916 2011 was arguably Australia s greatest art historian and one of the most important humanist thinkers internationally on ideas concerning cultural contact His *European Vision and the South Pacific* first published in 1960 showed how the ideas of the Enlightenment and the empirical structuring of scientific and geographical knowledge during the great eighteenth century voyages of discovery affected notions of identity both for Europeans and the Indigenous peoples with whom they came in contact Not only did Smith s investigation of art science and imperialism of this period explore the conditions of frontier contact it opened up the dialogue on de colonisation and allowed us to think beyond or after it He was undoubtedly a pioneer of post colonialism and the book remains a lighthouse in pacific studies The republication of *European Vision and the South Pacific* is an essential part of the discourse reframing the interconnections and crossing of cultural boundaries between Europe and antipodean societies This new edition of a significant Australian classic also coincides with the 250th

anniversary of Cook's landing on the east coast of Australia and complements new scholarship on territorialisation colonialism and the politics of exchange between metropolitan centres and peripheries A new introduction by Sheridan Palmer situates the book in a contemporary context **Principles of Geology** Sir Charles Lyell, 1875 *Reliquiae Aquitanicae* Edouard Lartet, Henry Christy, 1875 **The Realms of Rhetoric** Joseph Petraglia, Deepika Bahri, 2012-02-01 In *The Realms of Rhetoric* contributors from a wide range of disciplines explore the challenges and opportunities faced in building a curricular space in the academy for rhetoric Although rhetoric education has its roots in ancient times the modern era has seen it fragmented into composition and public speaking obscuring concepts theories and skills Petraglia and Bahri consider the prospects for rhetoric education outside of narrow disciplinary constraints and together with leading scholars examine opportunities that can propel and revitalize rhetoric education at the beginning of the millennium **God's Other Book** Mohammad Salama, 2024 In *God's Other Book* The Qur'an between History and Ideology Mohammad Salama presents a powerful critique of the ways we study and analyze early Islam and its sacred text filling a glaring hole in our understanding of this formative environment Interrogating the ideological framework of late antiquity Salama exposes hidden assumptions that prevent scholars from truly placing Islam in its socio historical and cultural milieu He also offers an alternative theoretical and practical model focused on pre Islamic Arabic cultural production Foregrounding the indigenous Arab community of seventh century Hijaz Salama demonstrates how the Qur'an played an organic role in commenting on interacting with and taking sides concerning matters of ethnicity ethics dress codes and social habits While the study delves into the past it carries implications for the future only with renewed attention to the Qur'an itself in all of its splendor and intricacy can Western readers engage thoughtfully and ethically not only with Islamic studies but also with the cultures and traditions of those who live according to another book Popish Sham-Bishops. What be they? Third edition Frederick Robert Augustus GLOVER, 1843 The Ecclesiology of St. Basil the Great Olga Druzhinina, 2016-06-22 In this book Olga Druzhinina analyzes St Basil's understanding of the church paying special attention to his Trinitarian approach to its life Although the role of God the Trinity in the life of the church occupies a considerable place in St Basil's thought as Druzhinina demonstrates it is a subject that has not previously been addressed by scholars The analysis offered here of the life of the church as grounded in Trinitarian philanthropy provides fresh insights into St Basil's understanding of the worldwide fellowship of believers Druzhinina also brings into focus another neglected aspect of St Basil's ecclesiology his perception of the church as a two dimensional heaven and earth mystical reality with a strong bond between both parts the heavenly and the earthly
