This summer assignment has been designed for several purposes:

- To get you to think during those summer months to keep your mind sharp, because we will expect a lot out of it come August!
- To expand your vocabulary by familiarizing you with terms that we will be using in class.
- To introduce you to major concepts from AP Biology through non-classroom methods of learning.
- To get you out of your house and neighborhood to enjoy nature.

Find and take a “selfie” with each item. Write a 4-5 sentence description to go with the selfie that includes a definition of the term represented by your image, but is not solely a definition. Explain *how your image represents the term* or concept. Image must actually show term, not just the possibility of the term. Create a Google doc or Google slide, doc., or a ppt. with the images and descriptions. You need to be in the shot—if you cannot be in the photo due to the angle, put your UNI ID in the frame. No taking images off the internet! Each photo can only count for one item on the list but you have choices (see example).

OPTION A: TAKE A SELFIE – YOU IN AN ECOSYSTEM AND SCAVENGER HUNT.

Ecosystem. Description should include: type of ecosystem; type of biome the ecosystem is part of; location of ecosystem; 3 abiotic factors and 3 biotic factors of this ecosystem. Any interesting or relevant facts about the picture or location. This should be one or two paragraphs.

AND

Selfies. Choose any **50** items from the list, remember each object (selfie) can count only for one item on the list! You cannot use items from your ecosystem as any of the 50 items! Give number and term for each photo.
