edition includes a new chapter on geriatric massage and has been extensively reviewed by over a dozen experts in the massage and medical fields. Written by massage therapy educator and practitioner Susan Salvo, this resource provides the pathology knowledge you need to succeed on licensure and certification exams and in practice. A traffic light icon appears before each pathology in the book, designating whether massage is contraindicated: red for local contraindication, yellow for indicated, or green for that particular pathology. Consistent format for each chapter makes it easy to find key information with learning objectives, list of pathologies, system overview, and pathologies including description, etiology, signs and symptoms, treatment, and massage considerations. Student-friendly features in each chapter include learning objectives and self-tests that measure your comprehension. Medical Technology boxes highlight special populations such as clients in wheelchairs or with pacemakers and explain what the medical device is and what special precautions or contraindications you should be aware of before working on these clients. Spotlight on Research boxes summarize recent studies of massage therapy and its effects. Student resources on an Evolve companion website include interactive activities, video clips of techniques, animations, the Body Spectrum coloring book, flashcards, review questions, additional case studies, an image collection, an audio glossary, study tips, stress-busting tips, research updates, and more. Mosby's Pathology for Massage Therapists Online reinforces content covered in the book and provides a dynamic way to learn key concepts with features including recall activities, rollover glossary terms and definitions, animations, quizzes, and Clinical Tips boxes. Available separately.
