Postcolonial Global Justice Shuk Ying Chan, 2025-08-19 A new account of global justice that recovers anticolonial thought for resisting a neocolonial age Politicians and activists today turn to the language of decolonization to call attention to such issues as cultural and linguistic decline exploitative foreign investment and global institutions dominated by superpowers But does anticolonial thought really provide a model for reimagining world politics The history of decolonization has not resulted in the liberating transformations that many envisioned In Postcolonial Global Justice Shuk Ying Chan proposes a new account of postcolonial global justice centered around the value of social equality Drawing on the thought of Aimé Césaire Frantz Fanon Kwame Nkrumah and Jawaharlal Nehru Chan argues that a central theme in anticolonial thought is the rejection of hierarchy and the embrace of equality These ideas from decolonization she suggests give us tools for critiquing contemporary global hierarchies and for rejecting postcolonial nationalism more concerned with policing its citizens than promoting their freedom and equality Following the wave of postcolonial state founding in the twentieth century many in the West saw decolonization as largely accomplished and yet global politics continue to feature hierarchies that resemble colonial relations Chan investigates these new and persistent colonial hierarchies across three areas of contemporary world politics international investment cultural imperialism and

global governance Exploring the changes needed to move toward a new more equal postcolonial world order Chan offers a vision of global justice rooted in the unrealized egalitarian aspirations of anticolonial thinker activists prompting us to rethink what decolonization may mean today

Inequality Kills Us All Stephen Bezruchka, 2022-11-28 The complex answer to why the United States does so poorly in health measures has at its base one pervasive issue The United States has by far the highest levels of inequality of all the rich countries *Inequality Kills Us All* details how living in a society with entrenched hierarchies increases the negative effects of illnesses for everyone The antidote must start Stephen Bezruchka recognizes with a broader awareness of the nature of the problem and out of that understanding policies that eliminate these inequalities A fair system of taxation so that the rich are paying their share

support for child well being including paid parental leave continued monthly child support payments and equitable educational opportunities universal access to healthcare and a guaranteed income for all Americans The aim is to have a society that treats everyone well and health will follow Zombies and Sexuality Shaka McGlotten, Steve Jones, 2014-09-24 Since the early 2000s zombies have increasingly swarmed the landscape of popular culture with ever more diverse representations of the undead being imagined A growing number of zombie narratives have introduced sexual themes endowing the living dead with their own sexual identity The unpleasant idea of the sexual zombie is itself provocative triggering questions about the nature of desire sex sexuality and the politics of our sexual behaviors However the notion of zombie sex has been largely unaddressed in scholarship This collection addresses that unexamined aspect of zombiedom with essays engaging a variety of media texts including graphic novels films television pornography literature and internet meme culture The essayists are scholars from a variety of disciplines including history theology film studies and gender and queer studies Covering *The Walking Dead* *Warm Bodies* and *Bruce LaBruce's* zombie porn movies this work investigates the cultural political and philosophical issues raised by undead sex and zombie sexuality **Wealth, Poverty and Enduring Inequality** Sarah Kerr, 2024-09-27 The rich and the poor in the UK are subject to radically different legislative approaches While the behaviours of the poor are relentlessly scrutinised those of the rich are ignored or enabled In this book Sarah Kerr suggests that we live in a state of wealtherty characterised by the hyper concentration of wealth and a stark distinction between the rich and the rest Drawing on evidence from the 1500s onwards she reveals a long history of government scrutiny of the poor and ignorance of the rich She contests contemporary policy and practice which disregards the enduring role of the rich in the production of poverty and poverty in the production of the rich In pursuit of social and economic justice this radical book challenges policy makers and researchers to stop talking about poverty and to start addressing the problems caused by wealtherty *Overcoming Inequalities in Schools and Learning Communities: Innovative Education for a New Century* Rocio Garcia-Carrion, Roseli Rodrigues De Mello, Arnetha F. Ball, 2020-03-24 Educational inequalities have strongly impacted disadvantaged and underserved populations such as indigenous Roma migrant children students with disabilities and those affected by poverty A wide array of research has contributed to explaining the mechanisms and effects of inequalities in the achievement patterns dropout rates disengagement in the school experiences of children and youth traditionally excluded Research also suggests the negative consequences for child development including cognitive language and social emotional functioning of poverty and lack of quality education in the early years Consequently the current unequal access to optimal learning environments for every single child to succeed in education and to have a better life perpetuates the exclusion and neglects their right to education for those minorities This Research Topic aims at moving beyond causes and shed light upon effective solutions by providing successful pathways for integration and inclusion of the learners most heavily affected Scholars worldwide are looking for successful actions with children youth and communities of

learners historically underserved to overcome educational and social exclusion. These transformative approaches go beyond the deficit thinking and are grounded in theories, empirical evidence, and multidisciplinary interventions oriented towards achieving social impact, which refers to the extent to which those actions have contributed to improve a societal challenge. The international network of Schools as Learning Communities is advancing knowledge on deepening and expanding the impact of what has been defined as Successful Educational Actions (SEAs), that is, those interventions that improve students' achievement and social cohesion and inclusion in many diverse contexts regardless of the socioeconomic, national, and cultural environment of schools. Drawing on the evidence generated by this network of researchers to address the global challenge of inequality by studying educational actions oriented towards achieving social impact and potentially transferrable to other contexts, this Research Topic aims at deepening on this approach. In short, our purpose is that the contributions included in this Research Topic contribute to reduce educational and social inequalities and especially benefit those populations most in need.
