

"Texarkana" Epidemic Measles in a Divided City

This case study is based on a 1996 Epi Semester Preparation course (authors unknown). It was modified and adapted for use with *Epidemiology: Key Sample*, 2nd (2003, Wiley) by R. Gostman.

Objectives

At the completion of this exercise the student should be able to:

1. Describe the epidemiologic objectives of investigating an outbreak of a vaccine-preventable disease
2. State the advantages and disadvantages of using a sensitive or specific case definition in an epidemiologic investigation
3. Calculate and interpret rates in populations, and estimate vaccine efficacy from the data
4. Discuss the advantages and disadvantages of selecting a given age for administering vaccinations.

Part I

On Tuesday, Nov. 5, 1979, the Texas State Health Department's weekly telegram to the Centers for Disease Control reported 318 cases of measles in all of the Texas-Arkansas state line. Texarkana, Texas (Brewer County), had a population of 29,793 in the 1980 census; the population has been stable during the decade. Texarkana, Arkansas (Miller County) has a population of 28,088.

Although Texarkana is divided by the state line, it is a single town economically and socially. There are many opportunities for contact among the residents on both sides of town.

Churches, physicians, offices, movie theaters, and stores draw people from both the Arkansas and Texas sides of town. People cross the state line to attend social functions such as football games and school dances. Many families have relatives who visit back and forth on both sides of town. Private nurseries and kindergartens receive children from both sides of town. The two sides of Texarkana, however, do have separate public school systems and separate public health departments.

QUESTION 1A: What are the reasons you might want to investigate this outbreak?

QUESTION 1B: What would be the objectives of the initial phase of your investigation?

¹ See *Epi. Key Sample* pp. 353–354 for reasons to investigate outbreaks and the goals of outbreak investigation. Which of these apply?

² See *Epi. Key Sample* pp. 353–355, esp. item 1 in Table 20.1.
