Maung Aung Myoe,2009-01-22 Ever since Myanmar regained her independence in January 1948 the Tatmadaw Myanmar Armed Forces has been crucial in restoring and maintaining law and order It is one of the most important institutions in Myanmar politics Various aspects of the Tatmadaw have been studied The most notable area of study has been the political role of the military This study looks at the organizational development of the Myanmar armed forces It analyses four different aspects of the Tatmadaw military doctrine and strategy organization and force structure armament and force modernization and military training and officer education It sets out security perceptions and policies charting developments in each phase against the situation at the time and also notes the contributions of the leading actors in the process Since early 1990s the Tatmadaw has implemented a force modernization programme This work studies rationales and strategy behind the force modernization programme and examines the military capabilities of the Tatmadaw Drawing extensively from archival sources and existing literature this empirically grounded research argues that while the internal armed security threat to the state continues to play an important role it is the external security threat that gives more weight to the expansion and modernization of the Tatmadaw since 1988 It also argues that despite its imperfections the Tatmadaw has transformed from a force essentially for counter insurgency operations into a force capable of fighting in limited conventional warfare
