- ▶ Hand out Anticipation Guide worksheet to each student
- ▶ Have students answer questions on the worksheet without referring to any resources; be sure to tell students that they are not expected to know every answer, but they should use any prior knowledge or word knowledge they may have to do the best they can
- ▶ When students are finished with the Anticipation Guide, take a poll on whiteboard to see how many students agree or disagree with each question
- ▶ Students should keep their completed worksheets nearby during the lesson on Similar and Congruent Figures, so that they may correct their paper as needed during the lesson
- ▶ Following the lesson, discuss correct answers to worksheet with class; students should be able to volunteer correct answers that they have learned from the lesson. As this is taking place, you may ask students how many of them arrived at the correct answer the first time.
