Antigone Efimia D. Karakantza, 2022-12-30 This book explores the figure of Antigone and her many reconceptualizations from antiquity to the present One of the most popular heroines of classical literature Antigone defied political authority to carry out the forbidden burial of her brother Readers will become familiar with the key themes of Antigone's story such as the law and politics gender and death tracing their survival and transformations over time Notably the book explores the thorough politicization of the heroine in philosophy and psychoanalysis followed by a reversal and re-politicization through feminist and socio-political theories It provides a useful tool to approach postmodern receptions of Antigone in the arts and society in the modern era particularly in the contexts of occupied and civil war era Greece in Palestine and in Syrian refugee camps in Lebanon It also addresses issues of Antigone like struggles of individuals or collectivities to overcome obstacles of systemic and racialized violence and gender-based oppression in the 21st century while challenging heteronormative practices and policies to allow new subjectivities to emerge Though Antigone's story is complex Karakantza provides an accessible fascinating overview of this enduring figure's legacy and impact over the course of history Antigone provides a comprehensive study of this classical heroine suitable for students and scholars of classical literature reception studies and gender studies It also appeals to theatre practitioners interested in adapting and staging Sophocles Antigone or any Antigone of the ancient sources **Antigone** Sophocles, 1962 **Sophocles** Jacques Jouanna, 2022-01-11 Here for the first time in English is celebrated French classicist Jacques Jouanna's magisterial account of the life and work of Sophocles Exhaustive and authoritative this acclaimed book combines biography and detailed studies of Sophocles' plays all set in the rich context of classical Greek tragedy and the political social religious and cultural world of Athens's greatest age the fifth century Sophocles was the commanding figure of his day The author of Oedipus Rex and Antigone he was not only the leading dramatist but also a distinguished politician military commander and religious figure And yet the evidence about his life has until now been fragmentary Reconstructing a lost literary world Jouanna has finally assembled all the available information culled from inscriptions archaeological evidence and later sources He also offers a huge range of new interpretations from his emphasis on the significance of Sophocles' political and military offices previously often seen as honorary to his analysis of Sophocles' plays in the mythic and literary context of fifth century drama Written for scholars students and general readers this book will interest anyone who wants to know more about Greek drama in general and Sophocles in particular With an extensive bibliography and useful summaries not only of Sophocles' extant plays but also uniquely of the fragments of plays that have been partially lost it will be a standard reference in classical studies for years to come **Greek Mythic Heroines in Brazilian Literature and Performance** , 2023-12-11 This volume presents a survey of the reception of Greek

myths including Antigone Medea the Trojan cycle and Alcestis in Brazilian literature and stage performance The collection addresses the work of many innovative authors some of them great names of Brazilian literature such as Jorge Andrade and Nelson Rodrigues who are influential in this specific area of classical reception and well known by modern audiences This unique volume is the product of collaboration of many scholars with different affiliations under the coordination of the Federal University of Rio de Janeiro and the Federal University of Minas Gerais Belo Horizonte two of the most prestigious universities in Brazil for the study of Classical and Reception Studies

Antigone Sophocle,2012-04-25 Pour avoir enterré son frère rebelle Antigone doit être punie de mort Le tyran Créon refuse de revenir sur sa décision malgré les lamentations des vieillards de Thèbes et les supplications de son propre fils Hémon fiancé d'Antigone Seuls les préceptes de Tirésias le feront changer d'avis mais il sera déjà trop tard

The Experience of Tragic Judgment Julen Etxabe,2013-05-02 Adjudication between conflicting normative universes that do not share the same vocabulary standards of rationality and moral commitments cannot be resolved by recourse to traditional principles Such cases are always in a sense tragic And what is called for in our pluralistic and conflictual world is not to be found as many would suppose in an impersonal set of procedures with which all participants could be treated as having rationally agreed The very idea of such a neutral system is an illusion Rather what is needed Julen Etxabe argues in this book is a heightened awareness of the difficulty of judgment The Experience of Tragic Judgments draws upon Sophocles play Antigone in order to consider this difficulty and the virtues that attend its acknowledgment Based on the transformative experience that the audience undergoes in engaging with this play what is proposed is a reconceptualization of judgment not as it is generally thought to occur in a single isolated moment like the falling of an axe but rather as an experience that develops in and through space and time

Pensare ciò che avviene Françoise Dastur,2025-05-23T00:00:00+02:00 Françoise Dastur qui intervistata da Philippe Cabestan ripercorre la sua vita e il suo lavoro intellettuale i suoi studi sulla fenomenologia e sull'ermeneutica nonché sull'idealismo tedesco Privilegiando la questione del linguaggio e della poesia in particolare nell'opera di Heidegger si impegna nel tentativo di chiarire il significato della nostra esperienza mondana al di là di ogni positivismo e di ogni teologismo Si tratta nell'estensione del pensiero di Heidegger di aprirsi a ciò che avviene e di cercare di dire questo ingresso nella presenza dell'apparire che sfugge costantemente alla comprensione dei nostri concetti In questa prospettiva non manca di interrogare il pensiero orientale come non cercare di entrare in dialogo con altre forme di pensiero che possano forse rendere conto in modo più adeguato di questo evento che sta apparendo
