Antisemitism through the Ages: A Historical Perspective Armin Lange, Kerstin Mayerhofer, Dina Porat, Lawrence H. Schiffman, 2021-08-23 This volume traces the history of antisemitism from antiquity through contemporary manifestations of the discrimination of Jews It documents the religious sociological political and economic contexts in which antisemitism thrived and thrives and shows how such circumstances served as support and reinforcement for a curtailment of the Jews social status The volume sheds light on historical processes of discrimination and identifies them as a key factor in the contemporary and future fight against antisemitism Confronting Antisemitism from the Perspectives of Christianity, Islam, and Judaism

Armin Lange, Kerstin Mayerhofer, Dina Porat, Lawrence H. Schiffman, 2020-10-26 This volume engages with antisemitic stereotypes as religious symbols that express and transmit a belief system of Jew hatred These religious symbols are stored in Christian Muslim and even today's secular cultural and religious memories This volume explores how antisemitic religious symbol systems can play a key role in the construction of group identities **Global Antisemitism: A Crisis of Modernity** Charles Asher Small, 2013-11-28 This volume contains a selection of essays based on papers presented at a conference organized at Yale University and hosted by the Yale Initiative for the Interdisciplinary Study of Antisemitism YIISA and the International Association for the Study of Antisemitism IASA entitled Global Antisemitism A Crisis of Modernity

The essays are written by scholars from a wide array of disciplines intellectual backgrounds and perspectives and address the conference's two inter-related areas of focus global antisemitism and the crisis of modernity currently affecting the core elements of Western society and civilization Rather than treating antisemitism merely as an historical phenomenon the authors place it squarely in the contemporary context As a result this volume also provides important insights into the ideologies processes and developments that give rise to prejudice in the contemporary global context This thought provoking collection will be of interest to students and scholars of antisemitism and discrimination as well as to scholars and readers from other fields

The First Shall Be The Last: Rethinking Antisemitism Adam Katz, Eric Gans, 2015-12-22 At a time when there is an evident socio economic political and cultural structural shift in the processes and practices associated with contemporary manifestations of antisemitism globally it is important to explore its origins and examine whether the circumstances of its genesis can shed light on its longevity and adaptability Few scholars are more qualified to undertake such a task than the authors of this volume who have done so much to develop and advance the discipline of generative anthropology In this study their groundbreaking hypothesis on the singular event that gave rise to human language and by extension human culture finds a fascinating parallel in the Jewish people's discovery invention of monotheism giving rise to historical resentments and hostility The volume will be of interest to scholars working in the field of anti discrimination and antisemitism as well as human rights scholars and cultural historians in general

Anti-Semitism and Its Metaphysical Origins David Patterson, 2015-02-09 This book articulates a deeper understanding of the phenomenon of Jew hatred as a metaphysical aspect of the human soul Proceeding from the Jewish thinking that the anti Semites oppose David Patterson argues that anti Semitism arises from the most ancient of temptations the temptation to be as God and thus to flee from an absolute accountability to and for the other human being
