Emma Newman

Any Other Name The Split Worlds Series Book :

Any Other Name Emma Newman, 2016-02-21 Second in the series that weaves magic mystery and parallel worlds together with ease Adam Christopher author of the official Stranger Things tie in novels Thought provoking wonderfully inventive and filled with treachery and mystery the soaring second book in the Split Worlds Series pulls Cathy Will Max and Sam deeper into the twisted world of Fae touched society Cathy has been reluctantly married into the Iris family and moves to Londinium the magical Nether reflection of London setting her on a collision course with the restrictive high pressure social circles that demand propriety and obedience things the vocal and free spirited Cathy cannot abide Will meanwhile is trying to find a compromise for his new bride but whispers in his ear are urging him towards dark deeds Sam determined to dive back into the world of Exilium to rescue innocents crosses paths with Cathy and Max once again as Max and the gargoyle uncover more information about the mysterious Agency and the chain of events that wiped out the Bath Chapter Sacrifices terrible deals and dreadful revelations mark this second installment of Emma Newman's wondrous Split Worlds series Praise for the Split Worlds series JK Rowling meets Georgette Heyer The Guardian Emma Newman has built a modern fantasy world with such lan and authority her ideas of why and how the seemingly irrational world of Fairy works should be stolen by every other writer in the field Bill Willingham Eisner Award winning author of Fables Learning to be a young lady has never seemed so dangerous Mary Robinette Kowal Hugo and Nebula Award winning author of the Lady Astronaut series

All Is Fair Emma Newman, 2016-02-21 Third in the series that's an intriguing mix of modern world Victorian Regency England and faery from the Hugo Award winning author of Any Other Name Locus Caught in the insidious designs of powerful puppet masters and playing a life or death game for control Cathy and her comrades face their greatest challenge yet changing the balance of power in the Split Worlds Now at the heart of the Londinium Court deceit and murder track Will's steps as he assumes his new role as Duke Faced with threats to his throne and his life the consequences of his bloody actions are already coming back to haunt him Meanwhile Cathy wrestling with the constraints of the Agency and Dame Iris comes to terms with her new status in Fae touched society and seeks others who feel just as restricted by its outdated social rules As Max works with Cathy to uncover the horrors that underpin the culture he bears witness as the final blow is struck against the last Sorcerers in Albion Put as simply as I can manage this book is wonderful Everything is bigger better more spectacular but at the same time the character development that I'd hoped for is given and it's given incredibly well Over the Effing Rainbow There's lots of action in this one but there's still all of the court intrigue and wonderful characterization that I've come to expect from the series and a few very important threads are wrapped up Don't worry though the ending leaves plenty of hints of things to come and I can't wait My Bookish Ways

**The Organization and Order of Battle of
Militaries in World War II.** Charles D. Pettibone, 2012 There are numerous Order of Battle books on the market So what makes this one so special Why should one decide on this particular book Most Order of Battle books usually deal only at the

division and corps level of a country's army. Most higher commands are not covered. This book deals with all the branches of a country's military giving a breakdown of all the major echelons of command from theater down to brigade under each component: army, group, armies, corps, division, and brigade, and the equivalent command for the other military branches are included. Second, it attempts to give an overall command structure of the country's military showing the central headquarters command structure as well as the major components: army, groups, armies, corps, etc. Third, most Order of Battle books list the commander and their dates of tenure. This one includes those but also lists their next duty assignments or where they went after leaving the post. One can literally trace a general officer's career through the upper echelons of command, making this series completely different from all the others on the market. *Between Two Thorns* Emma Newman, 2016-03-20 JK

Rowling meets Georgette Heyer in this series debut: a scintillating fusion of urban fantasy and court intrigue from the Hugo Award-winning author. The Guardian: *Between Mundanus*, the world of humans, and *Exilium*, the world of the Fae, lies the Nether, a mirror world where the social structure of 19th-century England is preserved by Fae-touched families who remain loyal to their ageless masters. Born into this world is Catherine Rhoeads Papaver, who escapes it all to live a normal life in Mundanus, free from her parents and the strictures of Fae-touched society. But now she's being dragged back to face an arranged marriage along with all the high-society trappings it entails. Crossing paths with Cathy is Max, an Arbiter of the Split Worlds' treaty with a dislocated soul who polices the boundaries between the worlds, keeping innocents safe from the Fae. After a spree of kidnappings and the murder of his fellow Arbiters, Max is forced to enlist Cathy's help in unravelling a high-profile disappearance within the Nether. Getting involved in the machinations of the Fae, however, may prove fatal to all involved. *Between Two Thorns* shows the darkness beneath the glamour of the social season. Learning to be a young lady has never seemed so dangerous. Mary Robinette Kowal, Hugo and Nebula Award-winning author of the *Lady Astronaut* series. Emma Newman has built a modern fantasy world with such panache and authority that her ideas of why and how the seemingly irrational world of Fairy works should be stolen by every other writer in the field. This book of wonders is first-rate. Bill Willingham, Eisner Award-winning author of *Fables*. *A Split Worlds Omnibus* Emma Newman, 2018-07-09. Now in one volume, the first three novels in the urban fantasy series that playfully mixes magic and interesting characters into an intriguing mystery. Kirkus Reviews: *Between Mundanus*, the world of humans, and *Exilium*, the world of the Fae, lies the Nether, a mirror world where the social structure of 19th-century England is preserved by Fae-touched families who remain loyal to their ageless masters. Born into this world is Catherine Rhoeads Papaver, who escapes it all to live a normal life in Mundanus, free from her parents and the strictures of Fae-touched society. But now she's being dragged back to face an arranged marriage along with all the high-society trappings it entails. After a spree of kidnappings and the murder of his fellow Arbiters, Max is forced to enlist Cathy's help in unravelling a high-profile

disappearance within the Nether Getting involved in the machinations of the Fae however may prove fatal to all involved The Split Worlds Omnibus spanning Between Two Thorns Any Other Name and All Is Fair presents the intricately plotted and delightfully suspenseful world Emma Newman has crafted Praise for the Split Worlds series JK Rowling meets Georgette Heyer Newman renders the Split Worlds with verve and an infectious sense of fun and presents in Cathy a strong and personable heroine The Guardian Learning to be a young lady has never seemed so dangerous Mary Robinette Kowal Hugo and Nebula Award winning author of the Lady Astronaut series
