## 👁️ Book Basics

### AUTHOR

Yann Martel

### YEAR PUBLISHED

2001

### GENRE

Adventure

### PERSPECTIVE AND NARRATOR

*Life of Pi* is told from a first-person point of view, with most of the narration by the protagonist, Pi Patel; shorter sections in italics are narrated by the visiting writer.

### TENSE

Pi narrates *Life of Pi* in the past tense. The visiting writer narrates in the present tense as he meets the adult Pi and in the past tense for the Author's Note.

### ABOUT THE TITLE

*Life of Pi* describes influential events in the life of Pi Patel, whose first name refers to the mathematical symbol pi, an irrational number (3.14159) that continues indefinitely without repeating numerals in a pattern. The symbol reflects Pi's quest to understand the universe and the infinity of life, which is also why the author left the article the out of the title: "Like pi, life is not finite."

## 🕒 In Context

### Autofiction

The novel is an example of autofiction, or a fictionalized autobiography of the character Pi Patel. The term autofiction was coined by French writer Serge Doubrovsky to describe his work *Files* (1977). By combining autobiography with fiction, works of autofiction seek to define the self or truth through fictional elements that may conflict with literal fact. To this end writers of autofiction may narrate in the third person or change the facts relating to people, details, or events because they believe this fictionalization tells a larger truth.

Martel said the story's central metaphor came to him one day: the tiger in the story would be "divine," while the lifeboat in which Pi Patel floats would be "an odyssey of the soul across existence." As autofiction the novel has the same trappings of authenticity a reader might find in a nonfiction biography or autobiography. It includes observations by a visiting writer about the main character, a transcript of an interview, an official report, and acknowledgments. The book itself

Third Series** Library of Congress. Copyright Office,1972      *Sourcebook of Family Theories and Methods* Pauline Boss,William J. Doherty,Ralph LaRossa,Walter R. Schumm,Suzanne K. Steinmetz,2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a

book that would give readers both a perspective on the past and a map for the future. There were precedents for such a project: *The Handbook of Marriage and the Family* edited by Harold Christensen and published in 1964; the two *Contemporary Theories about the Family* volumes edited by Wesley Burr, Reuben Hill, F. Ivan Nye, and Ira Reiss published in 1979; and *The Handbook of Marriage and the Family* edited by Marvin Sussman and Suzanne Steinmetz then in production.
