Mostafa Emami's first volume of Collected Essays is by all means a book for those already acquainted with the history of economic and management thought. It is the work of an author who has such familiarity with his subject matter that each essay reads with the assumption of a thorough grounding in the subject. Mostafa Emami PHD ECO FIN has been a Member Talent of Young Researchers and Elite Club since 2010 and a Member of the Iran's National Elites Foundation since 2012 and Research Fellow of Centre for Scientific Cooperation Elite Affairs Iran's Ministry of Defence where he was promoted to Study in Doctor of Philosophy in field of financial behaviour from Michigan Technological University in 2013. He served as a graduate at Tarbiat Modares University from 2010 to 2012. He has carved out a vast area of expertise on the classical economists and his list of publications is dizzying in length. What has made him so influential is his possession of a renowned fighting spirit in the development of an of ten controversial perspective of the subject matter. Fortunately for the reader and certainly for the student of economic and managements this means his papers consist of a set of clearly argued and lively debates on the classical economic and managements canon. This volume which presents work from roughly the last decade covers new fields of economists. One of his skills is his ability to make sense of the evolution of thought across such a daunting time scale and this collection demonstrates this quality admirably. This same attribute however is where much of the controversy surrounding his work lies.
