14 November Business Studies Paper Memorandum:

The Birth of Development Amy L. S. Staples, Amy L. Sayward, 2006 A comprehensive examination of economic globalization Focused on the creation and evolution of post 1945 internationalist ideology The Birth of Development highlights efforts to diffuse the destructive role of the nation state in world affairs by constructing truly international organizations with global agendas the World Bank the Food and Agriculture Organization and the World Health Organization These organizations and the men and women who worked for them pioneered the advancement of the quality of life for all and established an ongoing obligation to promote worldwide economic development As author Amy Staples reveals the results of their efforts were mixed Grounded in archival research conducted in the archives of the World Bank Food and Agriculture Organization and World Health Organization as well as in other archives in the United States Canada and Great Britain The Birth of Development provides a foundational understanding for many of today's debates on economic globalization especially those that involve the World Bank and World Trade Organization Given the current role of international peacekeepers and multinational aid agencies this story is timely and makes clear that the issues that confronted early postwar planners and reformers remain in many ways unsolved even today The Birth of Development is the only comparative study of these crucial architects of the theory and practice of economic development and it contributes significantly to the ongoing effort to view the postwar period as more than simply an East West Cold War It breaks new ground conceptually and methodologically and will be a welcome addition to the literature in the fields of modern diplomatic history and international relations *United States Army in World War II.*, 1992 The Medical Department Graham A. Cosmas, Albert E. Cowdrey, 1992 **Rearming for the Cold War, 1945-1960** Elliott Vanveltner Converse, 2012 Book Description The first publication in a multivolume series on the history of the acquisition of major weapon systems by the Department of Defense author Elliott Converse presents a meticulously researched overview of changes in acquisition policies organizations and processes within the United States military establishment during the decade and a half following World War II Many of the changes that shaped the nature and course of weapons research and development production and contracting through the end of the century were instituted between 1945 and 1960 many of the problems that have repeatedly challenged defense policymakers and acquisition professionals also first surfaced during these years This study is the first to combine the histories of the Office of the Secretary of Defense OSD and the military services into one account The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods **The Elusive Quest** Melvyn P. Leffler, 2017-10-10 Leffler argues that American officials did not disregard European developments after World War I but rather they sought to settle the war debt and reparations controversies to stabilize European currencies and to revive European markets Leffler bridges the gap between revisionist and traditionalist studies by integrating the diverse aspects of foreign policy and elucidates many new aspects of the foreign policymaking

process in the postwar period Originally published in 1979 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **History of Acquisition in the Department of Defense, Volume 1** Elliott V.

Converse,2012-06-12 This volume is a history of the acquisition of major weapon systems by the United States armed forces from 1945 to 1960 the decade and a half that spanned the Truman and Eisenhower administrations following World War II These instruments of warfare aircraft armored vehicles artillery guided missiles naval vessels and supporting electronic systems when combined with nuclear warheads gave the postwar American military unprecedented deterrent and striking power 1 They were also enormously expensive The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods The first roughly coinciding with President Truman s tenure covers the years from the end of World War II through the end of the Korean War in 1953 The second spans the two terms of the Eisenhower presidency from 1953 through early 1961 The year 1953 marked a natural breakpoint between the two periods The Korean War had ended President Eisenhower and his defense team began implementing the New Look a policy and strategy based on nuclear weapons which they believed would provide security and make it possible to reduce military spending The New Look s stress on nuclear weapons along with the deployment of the first operational guided missiles and the rapid advances subsequently made in nuclear and missile technology profoundly influenced acquisition in the services throughout the 1950s and the remainder of the century As used in this study the term acquisition encompasses the activities by which the United States obtains weapons and other equipment In surveying the history of acquisition between 1945 and 1960 this study discusses or refers in passing to many of the hundreds of weapon system programs initiated by the services in that period but it is not a weapons encyclopedia Instead it investigates a few major programs in depth in the belief that such detailed examination best reveals the evolution of acquisition policies organizations and processes and the various forces influencing weapons programs **British Railways 1948-73** T. R. Gourvish,N. Blake,1986

Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board s extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial performance investment and commercial policies of the British Transport Commission 1948 2 Railway Executive 1948 53 and British Railways Board 1963 73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948 73 This business history thus represents a major contribution not only to the debate about the role of the railways in a modern economy but also to that concerning the nationalised industries which have proved to be one of the most enduring problems of the British economy since the war

Public Papers of the Presidents of the United States, Lyndon B. Johnson Estados Unidos. Presidente (1963-1969: Johnson),1967 **Public Papers of the Presidents of the United States** United States. President,1980 Containing the public messages speeches and statements of the President 1956 1992 Public Papers of the Presidents of the United States, Lyndon B. Johnson United States. President (1963-1969 : Johnson),1965 *Pacific Islanders Under German Rule* Peter J. Hempenstall,2016-06-01 This is an important book It is a reprint of the first detailed study of how Pacific Islanders responded politically and economically to their rulers across the German empire of the Pacific Under one cover it captures the variety of interactions between the various German colonial administrations with their separate approaches and the leaders and people of Samoa in Polynesia the major island centre of Pohnpei in Micronesia and the indigenes of New Guinea Drawing on anthropology new Pacific history insights and a range of theoretical works on African and Asian resistance from the 1960s and 1970s it reveals the complexities of Islander reactions and the nature of protests against German imperial rule It casts aside old assumptions that colonised peoples always resisted European colonisers Instead this book argues convincingly that Islander responses were often intelligent and subtle manipulations of their rulers agendas their societies dynamic enough to make their own adjustments to the demands of empire It does not shy away from major blunders by German colonial administrators nor from the strategic and tactical mistakes of Islander leaders At the same time it raises the profile of several large personalities on both sides of the colonial frontier including Lauaki Namulau ulu Mamoe and Wilhelm Solf in Samoa Henry Nanpei Georg Fritz and Karl Boeder in Pohnpei or Governor Albert Hahl and Po Minis from Manus Island in New Guinea *Public Papers of the Presidents of the United States: Lyndon B. Johnson, 1966* Johnson, Lyndon B.,1967-01-01 Public Papers of the Presidents of the United States Investigation of Railroads, Holding Companies, and Affiliated Companies. Preliminary Report: 1920-24 United States. Congress. Senate. Committee on Interstate Commerce,1940 *The Loneliness of the Black Republican* Leah Wright Rigueur,2016-08-02 The story of black conservatives in the Republican Party from the New Deal to Ronald Reagan Covering more than four decades of American social and political history The Loneliness of the Black Republican examines the ideas and actions of black Republican activists officials and politicians from the era of the New Deal to Ronald Reagan s presidential ascent in 1980 Their unique stories reveal African Americans fighting for an alternative economic and civil rights movement even as the Republican Party appeared increasingly hostile to that very idea Black party members attempted to influence the direction of conservatism not to destroy it but rather to expand the ideology to include black needs and interests As racial minorities in their political party and as political minorities within their community black Republicans occupied an irreconcilable position they were shunned by African American communities and subordinated by the GOP In response black Republicans vocally and at times viciously critiqued members of their race and party in an effort to shape the attitudes and public images of black citizens and the GOP And yet there was also a measure of irony to black Republicans loneliness at various points factions of the Republican Party

such as the Nixon administration instituted some of the policies and programs offered by black party members What's more black Republican initiatives such as the fair housing legislation of senator Edward Brooke sometimes garnered support from outside the Republican Party especially among the black press Democratic officials and constituents of all races Moving beyond traditional liberalism and conservatism black Republicans sought to address African American racial experiences in a distinctly Republican way The Loneliness of the Black Republican provides a new understanding of the interaction between African Americans and the Republican Party and the seemingly incongruous intersection of civil rights and American conservatism

Overlord's Eagles John J. Sullivan, 2005-05-05 On June 6 1944 the Allies launched Operation Overlord the largest most hazardous amphibious assault in history The objective establishment of a lodgment area in Normandy from which the Allies could strike at the heart of Germany and destroy the German armed forces Air supremacy over northwest Europe was an absolute prerequisite for the success of the invasion and to achieve it the U S Army Air Forces launched two campaigns aimed at destroying the Germans transportation advantages in the area In the months and days leading up to the assault the Army Air Forces ceaselessly bombed rail centers rendering most of the railways in northern France and Belgium unusable Once the actual invasion was underway the Allies shifted to an interdiction campaign using precise air attacks on critical transportation installations near the battlefield to neutralize Germany's efforts to resupply and reinforce their troops This work makes use of many wartime records that had remained classified until recently

Behind the Throne Thomas J. McCormick, Walter LaFeber, 1993 During the American rise to world power in the last hundred years a new presidency has also arisen a presidency that uses military economic political and personal power that the constitutional founders of the 1780s would have thought highly improbable and dangerous Behind the Throne argues that United States presidents have received foreign policy advice from a new breed of government servants whose first loyalties were to the chief executive not the bureaucracy or the public These servants of power defined world views for the president not only advising but often taking action to implement those world views The essays in this volume focus on nine servants of power Brooks Adams brother of Henry Adams and advisor to Presidents McKinley and Roosevelt greatly influenced early American expansionist thinking by supporting Frederick Jackson Turner's Frontier Thesis Charles Conant in the same era profoundly affected America's economic relationship with Asia and Latin America During the Wilson administration Admiral William Caperton's views influenced foreign policy in the Caribbean and Latin America Controlling J P Morgan's overseas investments Thomas Lamont had direct access to and considerable influence upon every president in the 1920s and 1930s Adolf Berle advisor to Franklin Roosevelt guided the United States economic and security policies for the post World War II era preparing the way for both the World Bank and the International Monetary Fund As members of the Senate Foreign Relations Committee Senator Arthur Vandenberg and Senator Gerald P Nye championed United States isolationist policies in the early years of the cold war Vandenberg later turned internationalist and used his position as ranking Republican on the Committee to promote

President Truman's foreign policies in Congress His advice to Truman was crucial in the founding of the United Nations and the Organization of American States Thomas Mann Undersecretary of State for Latin American affairs in the Kennedy and Johnson administrations was instrumental in turning the United States away from the Alliance for Progress and back to a hard line policy A former Harvard dean McGeorge Bundy influenced the Kennedy Johnson experiments in global social engineering and the escalation of the Vietnam War The rise of the United States to the status of the world's lone and often highly perplexed and frustrated superpower cannot be understood without understanding these nine influential men and their roles in recent American history The volume also stands as a tribute to Fred Harvey Harrington professor of history and former president of the University of Wisconsin Madison All of the contributors began their distinguished careers as students of Harrington

Management & Accountancy Research Working Papers ,1984 **Intelligence and Strategy** John Ferris,2007-05-07 John Ferris work in strategic and intelligence history is widely praised for its originality and the breadth of its research At last his major pioneering articles are now available in this one single volume In *Intelligence and Strategy* these essential articles have been fundamentally revised to incorporate new evidence and information withheld by governments when they were first published This volume reshapes the study of communications intelligence by tracing Britain's development of cipher machines providing the context to Ultra and Enigma and by explaining how British and German signals intelligence shaped the desert war The author also explains how intelligence affected British strategy and diplomacy from 1874 to 1940 and world diplomacy during the 1930s and the Second World War Finally he traces the roots for contemporary intelligence and analyzes intelligence and the RMA as well as the role of intelligence in the 2003 Gulf War This volume ultimately brings new light to our understanding of the relations between intelligence strategy and diplomacy between the end of the 19th century and the beginning of the 21st century
