The Politics of Crises - The Crisis of Politics in Central and Eastern Europe Fanni Tanács-Mandák,Csaba Erdős,2025-08-18 The field of political science has been significantly shaped by the crises of the last decade particularly in Central and Eastern Europe The migration crisis of 2014 2015 the COVID 19 pandemic of 2020 2021 and the ongoing conflict between Russia and Ukraine have each posed unique challenges to nation states altering the dynamics of political institutions and actors These crises have highlighted the varying responses of European national governments from the welcoming Willkommenskultur to the construction of border fences during the migration crisis to the diverse legal frameworks adopted during the pandemic The escalation of the Russian Ukrainian conflict has further complicated these dynamics prompting different governmental responses Despite these varied approaches a common thread is the necessity for political institutions to interpret and respond to crises often requiring a departure from traditional decision making processes Current research has begun to explore these responses yet there remains a gap in understanding the full impact of these crises on inter institutional relations and the recalibration of policy making within political systems **Resources in Education** ,1996

Current Index to Journals in Education ,1987-07 **Caribbean Portraits** Christine Barrow,1998 Since the 1970s the study of gender issues as they relate to the Caribbean has gone through several reinterpretations The respectable wife and mother stereotype was replaced by that of the powerful matriarch which was in turn challenged by studies exposing the poverty and vulnerability of women not only of Afro Caribbean descent but Indian white and coloured middle class women These reinterpretations signal a departure from the European American and African feminist scholarship indeed Caribbean feminists are beginning to accept that perhaps the Caribbean woman does not exist Caribbean Portraits makes its contribution by focusing on issues of gender ideology and identity The articles in the collection ask simple but fundamental

questions Who are Caribbean women and who are Caribbean men How do gender ideologies and stereotypes define them and how in turn do they respond How are gender identities and relations formed and how do imperialism capitalism racism race and culture affect these identities and relationships Yearbook of International Organizations 2014-2015 (Volume 3) Union Of International Associations, Union of International Associations, 2014-08-20 The Yearbook of International Organizations provides the most extensive coverage of non profit international organizations currently available Detailed profiles of international non governmental and intergovernmental organizations IGO collected and documented by the Union of International Associations can be found here In addition to the history aims and activities of international organizations with their events publications and contact details the volumes of the Yearbook include networks between associations biographies of key people involved and extensive statistical data Volume 3 allows readers to locate organizations by subjects or by fields of activity and specialization and includes an index to Volumes 1 through 3 A Supplement to the Oxford English Dictionary: O-Scz R.
