**Digital Activism in Zimbabwe** Tenford Chitanana, 2024-10-21 This book investigates the role of the internet and social media in political processes in non-western and non-democratic contexts Using Zimbabwe as a case study the book demonstrates how activists and ordinary people deploy social media particularly Facebook to subvert an enduring hegemonic state However the book also highlights how authoritarian regimes are in turn learning and adapting to the information age challenging the impact of digital activism Studies of digital activism in the Global South are often centred around democracy but this book paints a more complex picture examining the role and effect of digital activism in challenging state hegemony in authoritarian contexts The book notes that while communication technologies help mediate activism they are also simultaneously constrained by pre-existing and emergent challenges tied to the social and political context and the inherent limitations of those technologies The book investigates the tactics used by digital activists the contextual factors and restrictive political environment they operate in including the role of pro-government activists and ultimately the impact of digital activism given these constraints From the case of Zimbabwe the book builds out a broader theoretical analysis of the evolution of third world protest in the digital age examining the limitations of activists' actions and the ideological deficit in online activism to ferment a virulent counter-hegemony

*Peace and Conflict in Africa* David Francis, 2013-04-04 Nowhere in the world is the demand for peace more prominent and challenging than in Africa From state collapse and anarchy in Somalia to protracted wars and rampant corruption in the Congo from bloody civil wars and extreme poverty in Sierra Leone to humanitarian crisis and authoritarianism in Sudan the continent is the focus of growing political and media attention This book presents the first comprehensive overview of conflict and peace across the continent Bringing together a range of leading academics from Africa and beyond Peace and

Conflict in Africa is an ideal introduction to key themes of conflict resolution peacebuilding security and development The book s stress on the importance of indigenous Africa approaches to creating peace makes it an innovative and exciting intervention in the field Local Knowledge for a Globalized World (Penerbit USM) Norizan Esa,Salasiah Che Lah, Local knowledge refers to knowledge and expertise which originate from local and indigenous cultures that have developed over time Its practices have been absorbed naturally and effortlessly into the local communities However due to globalization and modernization much of this knowledge has not been practiced and will be lost in time if efforts are not taken to preserve conserve and transfer it to the community Through the discussion of six articles written based on local and international research findings this book brings together researchers committed to local knowledge in sharing the process of documentation on local knowledge transfer issues and challenges and the methodology of knowledge transfer Thus new ideas are presented to promote the practice of preserving and conserving local knowledge to the practitioners students and communities *Advances in GIS and Remote Sensing the Landscape Pattern of Land Cover on Urban Climate and Urban Ecology* Pedzisai Kowe,Cletah Shoko,Steven Jerie,2023-11-24 The rapid urban expansion and associated land cover conversions in the last two decades call for an urgent need for developing advanced analytical and quantitative methods to manage the adverse impacts on urban ecology and climate The lower landscape connectivity higher land cover fragmentation and increase in higher surface temperatures in urban areas are largely a consequence of surface energy balance alteration triggered by the replacement of natural land covers like green spaces wetlands with built areas and impervious surfaces These spatial temporal variability changes have detrimental and significant impacts on the local and regional urban climate challenges that require both new Geospatial Analytic approaches and new sources of data and information Emerging Geospatial technologies Big Data Cloud Computing Google Earth Engines Advanced Machine Learning Algorithms and Deep learning offer great opportunities to acquire ubiquitous spatial data continuous observations and monitoring of the earth s surface detect the spatiotemporal patterns of changes in the landscape and urban climate and make predictions and scenarios for future urban ecology and surface temperature trends **The Rhodesia Science News** ,1974 The Zimbabwe Science News ,1998 **Military Review** ,2019-07 Zimbabwe's Trajectory V. Masunungure,2020-11-11 At Independence in 1980 Julius Nyerere called Zimbabwe the jewel of Africa and cautioned its new leaders not to tarnish it Tragically they paid no heed to Africa s esteemed elder statesmen Arguably and only if one ignores the carnage of Gukurahundi the first decade was a developmental one with resources being used prudently to benefit the formerly disadvantaged majority population However the 1990s witnessed a transition from a developmental to a predatory leadership which saw Zimbabwe cross the millennial line in crisis where it has remained ever since While many African countries have moved forward over the last three decades Zimbabwe has gone relentlessly backwards save for the four year interregnum of the tripartite coalition government 2009 2013 Virtually all development indicators point in the wrong direction and the crisis

of poverty unemployment and the erosion of health education and other public goods continues unabated The imperatives of political survival and power politics supersede those of sound economics and public welfare Moreover unless good politics are conjoined with a sound people first policy the country will continue sliding downhill Zimbabwe s Trajectory tells the story of the country s post independence dynamics and its recent descent into becoming one of the three most unhappy countries in the world      **Zimbabwe Research Index** ,1980 Register of current research in Zimbabwe      **Zimbabwe since the Unity Government** Stephen Chan,Ranka Primorac,2013-09-13 Zimbabwe has moved from a condition of restricted expression to one of many contradictory expressions Politics has lost none of its compromises and conflicts but it has been amplified by an explosion of voices For the first time a genuine debate is possible among many actors insiders and outsiders and the question marks over Zimbabwe and its future are no longer in terms of a narrow choice between one party and another one outlook or another Compromise government has meant complexity of debate This does not preclude disillusionment within debate but it does include vigour and imagination in debate This book includes essays from renowned scholars governmental and diplomatic figures and prioritises contributions by Zimbabweans themselves The essays provide a blend of academic and practitioner observation and judgement which no other volume has done This book was published as a special issue of The Round Table      Past and Present in Zimbabwe John David Yeadon Peel,T. O. Ranger,1983 Research papers on historical aspects and trends in political development local government and land tenure in Zimbabwe since independence in 1980 discusses prehistory archaeological data ideology use of tradition in rural area local government reasons for the 1980 election results comments on legislation for the transition from colonialism includes a case study of land titles in a black freehold area resettlement and land reform policy in the context of national level economic development Maps references statistical tables      *The Labour Governments 1964-70* Steven Fielding,John W. Young,2003 Part of The Labour Governments 1964 70 series this text concentrates on Britain s international policy during Harold Wilson s Labour governments in the 1960s The coverage ranges from defence policy and the government machine to European integration NATO and the Vietnam War Harold Wilson and his ministers have often been accused of betraying the sense of promise that greeted their victory in 1964 Using recently released archival evidence Young argues that a more balanced view of the government should recognize the real difficulties that surrounded decision making not only on Vietnam but also on Aden the Nigerian Civil War and Rhodesia tensions and the need to placate allies all placed limits on what a once great but clearly declining power could achieve Furthermore the government proved of pivotal importance in the history of Britain s international role in that it presided over a major shift of focus from positions east of Suez to European concerns a focus that has remained until the present day international relations during this exciting period Together with the other books in the series on domestic and economic policy it provides a complete picture of the development of Britain under the premiership of Harold Wilson      **Electoral Politics in Zimbabwe, Vol II** Esther Mavengano,Sophia Chirongoma,2023-08-08 Volume two

of Electoral Politics in Zimbabwe The 2023 Election and Beyond argues that research into Zimbabwe s politics is multifaceted and topical particularly because for more than two decades now this Southern African state has been dogged by multiple problems including hyperinflation drought escalating poverty levels extremely high unemployment rates and political instabilities The volume s overall goal is to ignite intellectual discussions and practical action towards turning the political wheels that have been in place for decades The first segment examines the interface between gender and electoral politics in Zimbabwe The second part discusses the role of the media in Zimbabwe s electoral politics The third section reflects on the role of traditional leaders and religious discourses in Zimbabwe s electoral politics The book will be a key resource to colleges universities and organisations in Zimbabwe the Southern Africa region and even beyond **Visioning Higher**

**Education for Contemporary Global Challenges** Peter H. Koehn,Phyllis Bo-yuen Ngai,Juha I. Uitto,2024-12-12 Visioning presents a roadmap for university leaders to vitalize higher education in response to global problems It addresses structural programmatic and curricular gaps in ways designed to prepare current and future generations for unfolding socio ecological challenges The book introduces five urgent and interconnected global challenges sustainable development climate change migration global health and social justice demanding attention from higher education institutions worldwide Each of these five chapters explores the challenge and then shifts focus to the needed roles of forward looking higher education institutions These roles include building critical consciousness developing competencies inspiring global actions exercising leadership at all levels conducting evaluations and undertaking innovative initiatives The book also proposes three specific initiatives 1 creation of linked academic Centers for Contemporary Global Challenges 2 establishment of South North Higher Education Consortia and 3 initiation of a Global Challenges Corps supported by transnational competence preparation It also provides an evaluation methodology to assess the traction of the proposed educational vision The concluding chapter offers a pathway to fill existing programmatic gaps and equip future generations to address global challenges This authoritative and insightful book is essential reading for university leaders educators and learners worldwide It provides practical strategies and a future preparatory vision for universities to address rising global challenges *Economics and Political Implications of*

*International Financial Reporting Standards* Uchenna, Efobi,Nnadi, Matthias,Tanna, Sailesh,Iyoha, Francis,2016-03-08 International Financial Reporting Standards IFRS are internationally recognized financial reporting guidelines regulated by the International Accounting Standards Board IASB to ensure that uniformity exists in the global financial system In addition to regulating financial reporting the adoption of IRFS has been shown to impact the flow of foreign capital and trade Economics and Political Implications of International Financial Reporting Standards focuses on the consequences and determinants of the adoption of the International Financial Reporting Standard IFRS which has remained a top issue in International Accounting This timely publication brings to the forefront issues related to the political and economic influences and impacts of IFRS in addition to providing a platform for further research in this area Policy makers academics

researchers graduate level students and professionals across the fields of management economics finance international relations and political science will find this publication pertinent to furthering their understanding of financial reporting at the global level *Handbook on Planning and Climate Change Adaptation* Patrick Brandful Cobbinah, Michael

Addaney, 2025-08-11 This timely Handbook explores how planning can be used as a mechanism a tool and a process to sustainably manage the impacts of climate change Conceptually grounded in the planning and climate change literature it illustrates the different capabilities and inadequacies of planning in addressing climate change adaptation **The Delusion of Knowledge Transfer** Susanne Koch, Peter Weingart, 2016-12-13 With the rise of the knowledge for development paradigm expert advice has become a prime instrument of foreign aid At the same time it has been object of repeated criticism the chronic failure of technical assistance a notion under which advice is commonly subsumed has been documented in a host of studies Nonetheless international organisations continue to send advisors promising to increase the effectiveness of expert support if their technocratic recommendations are taken up This book reveals fundamental problems of expert advice in the context of aid that concern issues of power and legitimacy rather than merely flaws of implementation Based on empirical evidence from South Africa and Tanzania the authors show that aid related advisory processes are inevitably obstructed by colliding interests political pressures and hierarchical relations that impede knowledge transfer and mutual learning As a result recipient governments find themselves caught in a perpetual cycle of dependency continuously advised by experts who convey the shifting paradigms and agendas of their respective donor governments For young democracies the persistent presence of external actors is hazardous ultimately it poses a threat to the legitimacy of their governments if their policy making becomes more responsive to foreign demands than to the preferences and needs of their citizens

**Disaster Risks and Hazards** Rosemary Kasimba, Innocent Chirisa, 2025-07-18 This book discusses disaster risks and hazards as well as measures to increase people's resilience The 21st Century has experienced a number of disasters that resulted in hampering socio economic development the loss of lives and property hence they are a threat to sustainable development Disaster risk management efforts and practices have failed to arrest the underlying drivers of increased global risk No country is immune to disaster risk thus resilience has become a critical component of disaster management It provides an opportunity to confront the social ecological foundations of disasters However it has been vaguely conceptualised and lacks a concrete approach to operationalization Some developing countries are gradually coming to realise that preparedness hazard mapping prediction risk and vulnerability assessment and planning are critical for increasing resilience and reducing losses following disasters A paradigm shift is required from reactionary to proactive measures in disaster management as the later focuses more on increasing the resilience of the community Zimbabwe's disaster management policy of 1979 is in the process of review following Cyclone Idai in March 2019 and the Corona Virus 19 COVID 19 Furthermore the consequences of climate change disaster are being felt with across the world particularly developing

countries whose preparatory measures for such disasters are inadequate Disasters have become inevitable and no country is every country is vulnerable to them In the event of these disasters the vulnerable people are at risk and are affected more as majority of them are not able to cope In developed countries measures are in place to assist the vulnerable in the event that a disaster strikes However Zimbabwe being a developing country is not able to deal with unpredictable disasters due to lack of resources hence the need for it to adopt mitigatory and transformative measures to reduce the impact of any form of disasters

*Environmental Impacts of Transnational Corporations in the Global South* Paul Cooney, William Sacher, 2018-11-30 This volume explores the impact of Transnational Corporations TNCs on the environment of the Global South during this period of neoliberal globalization It develops themes around transnational extractive activity the impact of transnational capital on indigenous populations and the role played by international institutions
