Steiner, 2016 Yale Textbook of Public Psychiatry is a comprehensive resource on treatment rehabilitation recovery and public health of persons cared for in organized publically funded systems of care Edited and authored by experts in public psychiatry at the Yale Department of Psychiatry this text provides up to date information on clinical work in the public sector This book will be a useful reference for professionals and students of public psychiatry administrators and policy makers

Addressing the Effects of COVID-19 on Rural Areas in Low and Middle Income Countries Masoud Yazdanpanah, Nadejda Komendantova, Love Ekenberg, Ahmed Al-Salaymeh, 2022-11-30

Contouring Human Development Mukunda Mishra, Soumendu Chatterjee, 2020-05-11 This book acquaints readers with a range of techniques to help them effectively identify record map analyze and report on patterns in various dimensions of human development HD with spatial scales down to the village level It is impossible to capture HD at the local and global scale with only a single index because differences in HD at the international scale are caused by general factors whereas local scale differences are influenced by specific factors This book offers a variety of methods for scientifically mapping HD at any spatial scale It covers how to rationally select variables how to test the models how to validate the results and how to analyze them For this purpose it employs a case study

on an Indian district The socio economic factors regulating the patterns of HD are now more complex than they were only a few decades ago making it essential to incorporate newer models in order to successfully replicate the real world situation Accordingly the book offers essential methodological tools techniques for mapping HD It sheds new light on a handful of statistical multivariate analysis and machine learning algorithms that are rarely used in the social sciences when dealing with HD yet have sound mathematical and statistical bases These techniques can be successfully used for predictive analysis in the earth natural sciences decision sciences and management disciplines and are equally effective in terms of capturing predicting and projecting the composite HD landscape This book will especially benefit two groups of readers firstly HD practitioners who want to find out why some areas are doing better than others by exploring the complex interactions of spatially linked variables with different HD parameters And secondly practitioners in other branches of the social sciences who are not concerned with HD but are looking for hands on training with techniques they can apply in their respective field of spatial investigations

Local Content Requirements Lili Yan Ing, Gene Grossman, 2023-11-06 As anti globalization and geopolitical tensions continue to rise the use of local content requirements LCRs around the world has become more noticeable than ever before The reasons for adopting LCRs range from ensuring domestic supply availability job creation and increasing value added to safeguarding national security Ing and Grossman examine country specific as well as firm product level exercises to explain how LCRs reduce fair competition resulting in lower trade and productivity which ultimately lowers world economic output and overall human welfare Countries around the world are investigated with specific attention to the US China Indonesia and resource intensive countries including mining intensive ones The book also presents product and firm level analyses answering the question of why countries adopted LCRs and how LCRs actually affect the world economy This book is a useful resource that will interest policymakers researchers and advanced undergraduates interested in international trade industrial policy political economy labour economics and development economics

Food-Energy-Water Systems: Achieving Climate Resilience and Sustainable Development in the 21st Century Charles Vörösmarty, Richard Lawford, Pietro Elia Campana, Donald Wuebbles, Graham Jewitt, 2024-01-23 extreme weather will mean ongoing challenges to the capacity of these sectors to support human well being grow the economy and provide critical environmental services Society has yet to evaluate the resilience of FEWS to climate environmental and management stresses as it shapes strategies to support sustainable development over the next decades These issues constitute a quintessential interdisciplinary research challenge and require a well structured science agenda and supportive information services for implementing key findings that governments and stakeholders can adopt Integrated policy pathways require usable research findings applications models real time information systems and decision support systems In addition stakeholder engagement is essential to communicate the benefits and results of these approaches and to engage appropriate groups in their implementation
