Tomain, 2017-02-17 Clean Power Politics explains clean energy policy and the need for a successful transition to clean energy in the future *Eating, Drinking: Surviving* Peter Jackson, Walter E.L. Spiess, Farhana Sultana, 2016-11-24 This publication addresses the global challenges of food and water security in a rapidly changing and complex world The essays highlight the links between bio physical and socio cultural processes making connections between local and global scales and focusing on the everyday practices of eating and drinking essential for human survival Written by international experts each contribution is research based but accessible to the general public Financial Literacy Education Asta Zokaityte, 2017-06-26 This book explores the issue of consumer financial education responding to increased interest in and calls to improve peoples financial literacy skills and abilities to understand and manage their money New conceptual frameworks introduced in the book offer academic audiences an innovative way of thinking about the project on financial literacy education Using the concepts of education regulation and financial knowledge democratisation to analyse the financial education project in the UK the book exposes

serious and often ignored limitations to using information and education as tools for consumer protection It challenges the mainstream representation of financial literacy education as a viable solution to consumer financial exclusion and poverty Instead it argues that the project on financial literacy education fails to acknowledge important dependences between consumer financial behaviour and the socio economic political and cultural context within which consumers live Finally it reveals how these international and national calls for ever greater financial education oversimplify and underestimate the complexity of consumer financial decision making in our modern times

Remote Sensing and Geospatial Technologies in Public Health Fazlay S. Faruque, 2018-09-21 This book is a printed edition of the Special Issue Remote Sensing and Geospatial Technologies in Public Health that was published in IJGI Beijing Garbage Stefan Landsberger, 2025-10-01 Why do central and local government initiatives aiming to curb the proliferation of garbage in Beijing and its disposal continue to be unsuccessful Is the Uberization of waste picking through online to offline O2O garbage retrieval companies able to decrease waste and improve the lives of waste pickers Most citizens of Beijing are well aware of the fact that their city is besieged by waste Yet instead of taking individual action they sit and wait for the governments at various levels to tell them what to do And even if when they adopt a proactive position this does not last Official education drives targeting the consumers are organized regularly and with modest success but real solutions are not forthcoming Various environmental non governmental organizations are at work to raise the level of consciousness of the population to change individual attitudes towards wasteful behavior but seemingly with little overall effects

Universities as Living Labs for Sustainable Development Walter Leal Filho, Amanda Lange Salvia, Rudi W. Pretorius, Luciana Londero Brandli, Evangelos Manolas, Fatima Alves, Ulisses Azeiteiro, Judy Rogers, Chris Shiel, Arminda Do Paco, 2019-04-30 This book fills an important gap in the literature and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education It is widely known that universities are key players in terms of the implementation and further development of sustainability with some having the potential of acting as living labs in this rapidly growing field Yet there are virtually no publications that explore the living labs concept as it relates to sustainability and in an integrated manner The aims of this book which is an outcome of the 4th World Symposium on Sustainable Development at Universities WSSD U 2018 held in Malaysia in 2018 are as follows i to document the experiences of universities from all around the world in curriculum innovation research activities and practical projects as they relate to sustainable development at the university level ii to disseminate information ideas and experiences acquired in the execution of projects including successful initiatives and good practice iii to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities and iv to promote the scalability of existing and future models from universities as living labs for sustainable development The papers are innovative cross cutting and many reflect practice based experiences some of which may be replicable elsewhere Also this book prepared by the Inter University Sustainable Development Research Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC reinforces the role played by universities as living labs for sustainable development **The World Factbook 2016-17**

Government Publications Office,2016-08-18 The World Factbook provides information on the history people government economy geography communications transportation military and transnational issues for 267 world entities The World Factbook Reference tab includes maps of the major world regions as well as Flags of the World a Physical Map of the World a Political Map of the World a World Oceans map and a Standard Time Zones of the World map This annual edition also covers information about country profiles and country comparisons It would make an excellent and useful resource for world geography research papers and international relations classes that may study the people history and communication patterns of other countries The Road to Unfreedom Timothy Snyder,2018-04-05 From the author of international bestseller On Tyranny this prescient analysis of Russia s ongoing interference in the West is now more relevant than ever One of the best

brisk conceptually convincing account of democracy s retreat in the early years of 21st century Guardian The past is another country the old saying goes The same might be said of the future But which country For Europeans and Americans today the answer is Russia In this visionary work of contemporary history Timothy Snyder shows how Russia works within the West to destroy the West by supporting the far right in Europe invading Ukraine in 2014 and waging a cyberwar during the 2016 presidential campaign and the EU referendum Nowhere is this more obvious than in the creation of Donald Trump an American failure deployed as a Russian weapon But this threat presents an opportunity to better understand the pillars of our freedoms and face the choices that will determine the future equality or oligarchy individualism or totalitarianism truth or lies A brilliant and disturbing analysis which should be read by anyone wishing to understand the political crisis currently engulfing the world Yuval Noah Harari bestselling author of Sapiens **The European Higher Education Area** Adrian

Curaj,Liviu Matei,Remus Pricopie,Jamil Salmi,Peter Scott,2015-10-12 Bridging the gap between higher education research and policy making was always a challenge but the recent calls for more evidence based policies have opened a window of unprecedented opportunity for researchers to bring more contributions to shaping the future of the European Higher Education Area EHEA Encouraged by the success of the 2011 first edition Romania and Armenia have organised a 2nd edition of the Future of Higher Education Bologna Process Researchers Conference FOHE BPRC in November 2014 with the support of the Italian Presidency of the European Union and as part of the official EHEA agenda Reuniting over 170 researchers from more than 30 countries the event was a forum to debate the trends and challenges faced by higher education today and look at the future of European cooperation in higher education The research volumes offer unique insights regarding the state of affairs of European higher education and research as well as forward looking policy proposals More than 50 articles focus on essential themes in higher education Internationalization of higher education Financing and governance Excellence and the diversification of missions Teaching learning and student engagement Equity and the social dimension of higher education Education research and innovation Quality assurance The impacts of the Bologna Process on the EHEA and beyond and Evidence based policies in higher education The Bologna process was launched at a time of great

optimism about the future of the European project to which of course the reform of higher education across the continent has made a major contribution Today for the present that optimism has faded as economic troubles have accumulated in the Euro zone political tensions have been increased on issues such as immigration and armed conflict has broken out in Ukraine There is clearly a risk that against this troubled background the Bologna process itself may falter There are already signs that it has been downgraded in some countries with evidence of political withdrawal All the more reason for the voice of higher education researchers to be heard Since the first conference they have established themselves as powerful stakeholders in the development of the EHEA who are helping to maintain the momentum of the Bologna process Their pivotal role has been strengthened by the second Bucharest conference Peter Scott Institute of Education London General Rapporteur of the FOHE BPRC first edition The World Factbook ,2016 **World Development Report 2016** World Bank Group,2016-01-14 This Report aims to inspire and guide the researchers and practitioners who can help advance a new set of development approaches based on a fuller consideration of psychological and social influences p 2 **China's One Belt One Road Initiative** Tai Wei Lim,Wen Xin Lim,Henry Hing Lee Chan,Katherine Hui-yi Tseng,2016-07-28 Chinese President Xi Jinping launched the Silk Road Economic Belt component of the One Belt One Road OBOR initiative at Kazakhstan in 2013 OBOR is a development strategy and framework that focuses on connectivity and cooperation among countries primarily in Eurasia It consists of two main components the land based Silk Road Economic Belt SREB and ocean going Maritime Silk Road MSR This book studies the equilibrium or balance between overland and maritime trade routes of OBOR This book has two major sections The interpretive section examines contemporary media narratives related to the OBOR initiative and how contemporary commentators appropriate narratives about historical events related to the maritime Silk Road to interpret current policy agendas and legitimize diplomatic or economic exchanges In terms of institutional studies the chapters related to Asian Infrastructure Investment Bank AIIB will look at the issues facing the Bank in its quest in forming a new world platform for multilateral development financing The other section the empirical case study of the publication highlights the fact that Euro China High Speed Rail HSR and Central Asia China HSR are not viable at the moment as passenger volume is not sufficient to justify the HSR line This section examines the overland route of the OBOR and looks at recent Chinese HSR history and conventional sub high speed rail technology development and identifies technical economic criteria determining the appropriate technology for a certain line The chapter in this section will use the developed criteria to analyze the various rail linkage projects currently under study in the OBOR framework highlight the economic bureaucratic and geo political challenges that these projects likely face and lay down conditions that will determine the outcome of these projects **Shareholder Cities** Sai Balakrishnan,2019-11-01 Economic corridors ambitious infrastructural development projects that newly liberalizing countries in Asia and Africa are undertaking are dramatically redefining the shape of urbanization Spanning multiple cities and croplands these corridors connect metropolises via high

speed superhighways in an effort to make certain strategic regions attractive destinations for private investment As policy makers search for decentralized and market oriented means for the transfer of land from agrarian constituencies to infrastructural promoters and urban developers the reallocation of property control is erupting into volatile land based social conflicts In *Shareholder Cities* Sai Balakrishnan argues that some of India's most decisive conflicts over its urban future will unfold in the regions along the new economic corridors where electorally strong agrarian propertied classes directly encounter financially powerful incoming urban firms Balakrishnan focuses on the first economic corridor the Mumbai Pune Expressway and the construction of three new cities along it The book derives its title from a current mode of resolving agrarian urban conflicts in which agrarian landowners are being transformed into shareholders in the corridor cities and the distributional implications of these new land transformations Shifting the focus of the study of India's contemporary urbanization away from megacities to these in between corridor regions Balakrishnan explores the production of uneven urban development that unsettles older histories of agrarian capitalism and the emergence of agrarian propertied classes as protagonists in the making of urban real estate markets *Shareholder Cities* highlights the possibilities for a democratic politics of inclusion in which agrarian urban encounters can create opportunities for previously excluded groups to stake new claims for themselves in the corridor regions
