MARKS: 150

MARKING PRINCIPLES:

1. Penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item. No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Full marks for correct answer. If answer incorrect, mark the workings provided.
4. If a pre-adjustment figure is shown as the final figure, award one mark. Not the method mark for the answer. Note: if figures are stipulated in memo for components of workings, these do not carry the method for final answer.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or - sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. This memorandum is not for public distribution, as certain items might imply incorrect treatment. The adjustment made are due to nuances in a certain question.
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, the marker must inspect the reasonableness of the answer before awarding the mark.
10. Operation means 'Check operation'. 'One part correct' means 'Operation & one part correct'. Note: check operation must be +, x, -, or per candidates operation.
11. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect, indicate with a 0. Note: do not award marks for workings if numerator and denominator are swapped-this also applies to ratios.
12. Be aware of candidates who provide valid alternatives beyond the marking guideline.
13. Codes: f=foreign item; p=placement.

Slavery, Capitalism and the Industrial Revolution Maxine Berg, Pat Hudson, 2023-05-25 The role of slavery in driving Britain's economic development is often debated but seldom given a central place In their remarkable new book Maxine Berg and Pat Hudson follow the money to document in revealing detail the role of slavery in the making of Britain's industrial revolution Slavery was not just a source of wealth for a narrow circle of slave owners who built grand country houses and filled them with luxuries The forces set in motion by the slave and plantation trades seeped into almost every aspect of the economy and society In textile mills iron and copper smelting steam power and financial institutions slavery played a crucial part Things we might think far removed from the taint of slavery such as eighteenth century fashions for indigo patterned cloth sweet tea snuff boxes mahogany furniture ceramics and silverware were intimately connected Even London's role as a centre for global finance was partly determined by the slave trade as insurance financial trading and mortgage markets were developed in the City to promote distant and risky investments in enslaved people The result is a bold and unflinching account of how Britain became a global superpower and how the legacy of slavery persists Acknowledging Britain's role in slavery is not just about toppling statues and renaming streets We urgently need to come to terms with slavery's inextricable links with Western capitalism and the ways in which many of us continue to benefit from slavery to this day
