Revolt of the Rich David Gibbs,2024-06-18 Inequality in the United States has reached staggering proportions with a massive share of wealth held by the very richest How was such a dramatic shift in favor of a narrow elite possible in a democratic society David N Gibbs explores the forces that shaped the turn toward free market economics and wealth concentration and finds their roots in the 1970s He argues that the political transformations of this period resulted from a revolt of the rich whose defense of their class interests came at the expense of the American public Drawing on extensive archival research Gibbs examines how elites established broad coalitions that brought together business conservatives social traditionalists and militarists At the very top Richard Nixon s administration quietly urged corporate executives to fund conservative think tanks and seeded federal agencies with free market economists Even Jimmy Carter s ostensibly liberal administration brought deregulation to the financial sector along with the imposition of severe austerity measures that hurt the living standards of the working class Through a potent influence campaign academics and intellectuals sold laissez faire to policy makers and the public justifying choices to deregulate industry cut social spending curb organized labor and offshore jobs alongside expanding military interventions overseas Shedding new light on the political alliances and policy decisions that tilted the playing field toward the ultrawealthy **Revolt of the Rich** unveils the origins of today s stark disparities

Diminishing Returns ,2022-07-01 In **Diminishing Returns** Lucio Baccaro Mark Blyth and Jonas Pontusson bring together a list of top contributors in the field to examine capitalist economies in times where economic growth has slowed down considerably As economic growth is a powerful social stabilizer and contributes to make the characteristic features of capitalism the key question motivating the volume is What happens when growth the main mechanism of capitalist legitimation is harder to come by and less broadly shared The volume analyzes the politics of growth and stagnation at the country regional and global level through a new theoretical framework the Growth Model Perspective

Work and Livelihoods Susana Narotzky,Victoria Goddard,2016-12-01 Winner of the Society for the Anthropology of Work book prize 2017 This volume presents a global range of ethnographic case studies to explore the ways in which in the context of the restructuring of industrial work the ongoing financial crisis and the surge in unemployment and precarious employment local and global actors engage with complex social processes and devise ideological political and economic responses to them It shows how the reorganization

and re signification of work notably shifts in the perception and valorization of work affect domestic and community arrangements and shape the conditions of life of workers and their families

The Opposite of Hate Sally

Kohn,2018-04-10 Brilliantly illustrates the immense and disarming power of changing course and driving not toward division but toward civility and mutual respect Ms magazine As a progressive commentator on Fox News and now CNN Sally Kohn has made a career out of bridging intractable political differences In this age of dangerous partisan resentment and rising bigotry she decided to investigate hate itself to better consider how we can stop it With her trademark humor and humanity Kohn introduces us to leading researchers and scientists who are exploring the evolutionary and cultural roots of hate She travels to Rwanda to the Middle East and across the United States talking with former terrorists and reformed white supremacists and even sitting down with some of her own Twitter trolls What she discovers is surprising All of us harbor hate but the powerful acknowledgment that we are all in this together can lead us out of the wilderness The opposite of hate is connection

Television for Women

Rachel Moseley,Helen Wheatley,Helen Wood,2016-11-10 Television for Women brings together emerging and established scholars to reconsider the question of television for women In the context of the 2000s when the potential meanings of both terms have expanded and changed so significantly in what ways might the concept of programming addressed explicitly to a group identified by gender still matter The essays in this collection take the existing scholarship in this field in significant new directions They expand its reach in terms of territory looking beyond for

example the paradigmatic Anglo American axis and also historical span Additionally whilst the influential methodological formation of production text and audience is still visible here the new research in Television for Women frequently reconfigures that relationship The topics included here are far reaching from television as material culture at the British exhibition in the first half of the twentieth century women s roles in television production past and present to popular 1960s television such as The Liver Birds and in the twenty first century highly successful programmes including Orange Is the New Black Call the Midwife One Born Every Minute and Wanted Down Under This book presents ground breaking research on historical and contemporary relationships between women and television around the world and is an ideal resource for students of television media and gender studies

Green Capitalism? Hartmut Berghoff, Adam Rome, 2017-04-05 At a time when the human impact on the environment is more devastating than ever business initiatives frame the quest to green capitalism as the key to humanity s long term survival Indeed even before the rise of the environmental movement in the 1970s businesses sometimes had reasons to protect parts of nature limit their production of wastes and support broader environmental reforms In the last thirty years especially many businesses have worked hard to reduce their direct and indirect environmental footprint But are these efforts exceptional or can capitalism truly be environmentally conscious Green Capitalism offers a critical historically informed perspective on building a more sustainable economy Written by scholars of business history and environmental history the essays in this volume consider the nature of capitalism through historical overviews of twentieth century businesses and a wide range of focused case studies Beginning early in the century contributors explore the response of business leaders to environmental challenges in an era long before the formation of the modern regulatory state Moving on to midcentury environmental initiatives scholars analyze failed

business efforts to green products and packaging such as the infamous six pack ring in the 1960s and 1970s The last section contains case studies of businesses that successfully managed greening initiatives from the first effort by an electric utility to promote conservation to the environmental overhaul of a Swedish mining company to the problem of household waste in pre 1990 West Germany Ranging in geographic scope from Europe to the United States Green Capitalism raises questions about capitalism in different historical sociocultural and political contexts Contributors Hartmut Berghoff Ann Kristin Bergquist Brian C Black William D Bryan Julie Cohn Leif Fredrickson Hugh S Gorman Geoffrey Jones David Kinkela Roman Kster Joseph A Pratt Adam Rome Christine Meisner Rosen **The Biden School and the Engaged University of Delaware, 1961-2021** Daniel Rich, 2023-03-17 This book reviews the history of the Joseph R Biden Jr School of Public Policy and Administration from 1961 to 2021 The focus is the school s accomplishments and its journey as a case study of organizational leadership in higher education The school has been an innovator in its organization and exemplifies the expansion of the higher education responsibilities to the larger society
