The Years That Matter Most Paul Tough, 2019-09-12 What has gone wrong in our universities And how do we make it right When Amy applied to university she thought she d be judged purely on her merits But she never thought that her family background would have as much impact on her future as her grades When KiKi arrived at university she knew she could be the only black woman in her class But she didn t know how out of place she would feel nor how unwelcoming her peers would be When Orry graduated from university he was told he d probably land a six figure salary But he wasn t told he d end up barely scraping a living wage struggling to feed his children Drawing on the stories of hundreds of American students *The Years That Matters Most* is a revelatory account of a university system in crisis Paul Tough bestselling author of *How Children Succeed* exposes a world where small town colleges go bust while the most prestigious raise billions every year where overstretched admissions officers are forced to pick rich candidates over smart ones where black and working class students are left to sink or swim on uncaring campuses Along the way he uncovers cutting edge research from the academics leading the way to a new kind of university one where students succeed not because of their background but because of the quality of their minds The result is a call to arms for universities that work for everyone and a manual for how we can make it happen

No Longer Newsworthy Christopher R. Martin, 2019-05-15 Until the recent political shift pushed workers back into the media spotlight the mainstream media had largely ignored this significant part of American society in favor of the moneyed upscale consumer for more than four decades Christopher R Martin now reveals why and how the media lost sight of the American working class and the effects of it doing so The damning indictment of the mainstream media that flows through *No Longer Newsworthy* is a wakeup call about the critical role of the media in telling news stories about labor unions workers and working class readers As Martin charts the decline of labor reporting from the late 1960s onwards he reveals the shift in news coverage as the mainstream media abandoned labor in favor of consumer and business interests When newspapers especially wrote off working class readers as useless for their business model the American worker became invisible In *No Longer Newsworthy* Martin covers this shift in focus the loss of political voice for the working class and the emergence of a more conservative media in the form of Christian television talk radio Fox News and conservative websites Now with our fractured society and news media Martin offers the mainstream media recommendations

for how to push back against right wing media and once again embrace the working class as critical to its audience and its democratic function

Resources in Education, 1998 *Globally Generated Vector Bundles with Small c_1 on Projective Spaces* Cristian Anghel, Justin Coandă, Nicolae Manolache, 2018-05-29 The authors provide a complete classification of globally generated vector bundles with first Chern class $c_1 \leq 5$ on the projective plane and with $c_1 \leq 4$ on the projective n space for $n \geq 3$ This reproves and extends in a systematic manner previous results obtained for $c_1 \leq 2$ by Sierra and Ugaglia J Pure Appl Algebra 213 2009 2141–2146 and for $c_1 \leq 3$ by Anghel and Manolache Math Nachr 286 2013 1407–1423 and independently by Sierra and Ugaglia J Pure Appl Algebra 218 2014 174–180 It turns out that the case $c_1 = 4$ is much more involved than the previous cases especially on the projective 3 space Among the bundles appearing in our classification one can find the Sasakura rank 3 vector bundle on the projective 4 space conveniently twisted The authors also propose a conjecture concerning the classification of globally generated vector bundles with $c_1 \leq n-1$ on the projective n space They verify the conjecture for $n \leq 5$

where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that what s needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools
