Minerals Yearbook Geological Survey, Interior Department, Mines Bureau, 2019-01-31 This volume covering metals and minerals contains chapters on approximately 90 commodities In addition this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary **Fake Science**

Austin Ruse, 2017-07-17 If you listen to any political argument you re eventually bound to hear something like The science is settled on this Or Just look at the statistics Or There have been studies that say You d think we were living in the golden age of science and reason But the truth is far more sinister says Austin Ruse We re actually living in the age of the low information voter easily mislead by all too convincing false statistics and studies In Fake Science Ruse debunks so called facts used to advance political causes one after the other revealing how poorly they stand up to actual science **Principles**

of Clinical Medicine for Space Flight Michael R. Barratt, Ellen S. Baker, Sam L. Pool, 2020-01-02 In its first edition *Principles of Clinical Medicine for Space Flight* established itself as the authoritative reference on the contemporary knowledge base of space medicine and standards of care for space flyers It received excellent notices and is used in the curricula of civilian and military training programs and used as a source of questions for the Aerospace Medicine Certifying Examination under the American Board of Preventive Medicine In the intervening few years the continuous manning of the International Space Station has both strengthened existing knowledge and uncovered new and significant phenomena related to the human in space The Second Edition incorporates this information Gaps in the first edition will be addressed with the addition new and revised chapters This edition is extensively peer reviewed and represents the most up to date knowledge

Assured Destruction David Bath, 2020-03-15 *Assured Destruction Building the Ballistic Missile Culture of the U S Air Force* documents the rapid development of nuclear ballistic missiles in the United States and their equally swift demise after the Cuban Missile Crisis revealing how these drastic changes negatively influenced both the Air Force and the missile community David W Bath contends that the struggle to create and control nuclear ballistic missiles threatened both the dominance of the United States during an intensifying Cold War and the strategic airpower mission of the newly created Air Force The book details the strenuous efforts required to create and prepare a missile arsenal before the Cuban Missile Crisis which occurred only five years after the first missile was declared operational It uses the personal recollections of former missileers and the professional military education theses they wrote to highlight some of the concerns that have faced the missileers who operated and worked on these powerful weapons from 1957 to the present The highlight of the book however is the personal stories of the missileers who served during the missile crisis revealing the efforts that they went to in order to prepare these unique and untried weapons for what many thought might become the third world war **Strengthening Data Science Methods for Department of Defense Personnel and Readiness Missions** National Academies of Sciences, Engineering, and Medicine, Division on Engineering and Physical Sciences, Board on Mathematical Sciences and Their

Applications, Committee on Applied and Theoretical Statistics, Committee on Strengthening Data Science Methods for Department of Defense Personnel and Readiness Missions, 2017-03-06 The Office of the Under Secretary of Defense Personnel Readiness referred to throughout this report as P R is responsible for the total force management of all Department of Defense DoD components including the recruitment readiness and retention of personnel Its work and policies are supported by a number of organizations both within DoD including the Defense Manpower Data Center DMDC and externally including the federally funded research and development centers FFRDCs that work for DoD P R must be able to answer questions for the Secretary of Defense such as how to recruit people with an aptitude for and interest in various specialties and along particular career tracks and how to assess on an ongoing basis service members career satisfaction and their ability to meet new challenges P R must also address larger scale questions such as how the current realignment of forces to the Asia Pacific area and other regions will affect recruitment readiness and retention While DoD makes use of large scale data and mathematical analysis in intelligence surveillance reconnaissance and elsewhere exploiting techniques such as complex network analysis machine learning streaming social media analysis and anomaly detection these skills and capabilities have not been applied as well to the personnel and readiness enterprise Strengthening Data Science Methods for Department of Defense Personnel and Readiness Missions offers and roadmap and implementation plan for the integration of data analysis in support of decisions within the purview of P R *Islamic Ecumene* David S. Powers, Eric

Tagliacozzo, 2023-11-15 The essays in *Islamic Ecumene* address the ways in which Muslims from Morocco to Indonesia and from sub Saharan Africa to the steppes of Uzbekistan are members of a broad cultural unit Although the Muslim inhabitants of these lands speak dozens of languages represent numerous ethnic groups and practice diverse forms of Islam they are united by shared practices and worldviews shaped by religious identity To highlight these commonalities the co editors invited a team of scholars from a wide range of disciplines to examine Muslim societies in comparative and interconnected ways The result is a book that showcases ethics education architecture the arts modernization political resistance marriage divorce and death rituals Using the insights and methods of historians anthropologists literary critics art historians political scientists and sociologists *Islamic Ecumene* seeks to understand Islamic identity as a dynamic phenomenon that is reflected in the multivalent practices of the more than one billion people across the planet who identify as Muslims **Routledge**

Handbook of Asian Cities Richard Hu, 2023-05-31 This handbook provides the most comprehensive examination of Asian cities developed and developing large and small and their urban development Investigating the urban challenges and opportunities of cities from every nation in Asia the handbook engages not only the global cities like Shanghai Tokyo Singapore Seoul and Mumbai but also less studied cities like Dili Mal Bandar Seri Begawan Kabul and Pyongyang The handbook discusses Asian cities in alignment to the United Nations New Urban Agenda and Sustainable Development Goals in order to contribute to global policy debates In doing so it critically reflects on the development trajectories of Asian cities

and imagines an urban future in Asia and the world in the post sustainable post global and post pandemic era Presenting 43 chapters of original insightful research this book will be of interest to scholars practitioners students and general readers in the fields of urban development urban policy and planning urban studies and Asian studies **Streaming and Copyright Law** Lasantha Ariyaratna,2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content s infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming websites without being held liable for copyright infringement Despite the intricacies between copyright and access to digital content the recently implemented website blocking laws have emboldened copyright owners while suppressing end users access to digital content This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions Genetically Engineered Crops National Academies of Sciences, Engineering, and Medicine,Division on Earth and Life Studies,Board on Agriculture and Natural Resources,Committee on Genetically Engineered Crops: Past Experience and Future Prospects,2017-01-28 Genetically engineered GE crops were first introduced commercially in the 1990s After two decades of production some groups and individuals remain critical of the technology based on their concerns about possible adverse effects on human health the environment and ethical considerations At the same time others are concerned that the technology is not reaching its potential to improve human health and the environment because of

stringent regulations and reduced public funding to develop products offering more benefits to society While the debate about these and other questions related to the genetic engineering techniques of the first 20 years goes on emerging genetic engineering technologies are adding new complexities to the conversation Genetically Engineered Crops builds on previous related Academies reports published between 1987 and 2010 by undertaking a retrospective examination of the purported positive and adverse effects of GE crops and to anticipate what emerging genetic engineering technologies hold for the future This report indicates where there are uncertainties about the economic agronomic health safety or other impacts of GE crops and food and makes recommendations to fill gaps in safety assessments increase regulatory clarity and improve innovations in and access to GE technology

Educating for Professional Life Elaine Penn, 2017-09-26 The story of the University of Westminster is the fifth volume in a series of titles exploring the University's long and diverse history This book celebrates the twenty fifth anniversary of the institution gaining university status the right to award its own degrees and to participate in publicly funded research Drawing on extensive research conducted in the University of Westminster Archive this volume investigates the evolution from Polytechnic to University within the broader context of the transformation of UK higher education in the late twentieth and early twenty first centuries

Despite The State: Why India Lets Its People Down And How They Cope M. Rajshekhar, 2024-03 About the Book A LUCID NECESSARY ACCOUNT OF HOW DRASTICALLY THE INDIAN STATE FAILS ITS CITIZENS The story of democratic failure is usually read at the level of the nation while the primary bulwarks of democratic functioning the states get overlooked This is a tale of India's states of why they build schools but do not staff them with teachers favour a handful of companies so much that others slip into losses wage wars with their neighbours while allowing rampant sand mining and groundwater extraction harness citizens right to vote but brutally crack down on their right to dissent Reporting from six states over thirty three months award winning investigative journalist M Rajshekhar

delivers a necessary account of a deep crisis that has gone largely unexamined Supreme emergency Andrew Corbett,2022-02-15 In Supreme emergency an ex Trident submarine captain considers the evolution of UK nuclear deterrence policy and the implications of a previously unacknowledged aversion to military strategies that threaten civilian casualties Drawing on extensive archival research the book provides a unique synthesis of the factors affecting British nuclear policy decision making and draws parallels between government debates about reprisals for First World War zeppelin raids on London the strategic bombing raids of the Second World War and the evolution of the UK nuclear deterrent It concludes that among all the technical factors an aversion to being seen to condone civilian casualties has inhibited government engagement with the public on deterrence strategy since 1915 **Religious Accommodations in the Armed Services** United States. Community Education and Neoliberalism Camilla Fitzsimons,2025-11-10 This open access book now in its second edition offers a powerful analysis of adult and community education at a time of rising inequality and diminishing state support Grounded in both Irish and international contexts this edition again challenges the impact of neoliberal agendas on grassroots community education and makes a convincing case for reclaiming community education s radical consciousness raising agenda The book is theoretically rooted in critical feminist pedagogy and draws on real world examples to present key aspects of this approach to adult learning in a clear accessible and practical way Community Education and Neoliberalism exposes the extent to which market driven forces and managerialist agendas are eroding the transformative nature of adult and community education The author examines the impact of neoliberal government lifelong learning policies the potential drawbacks of professionalising community education and the perils of accreditation systems when marketisation becomes the principal focus But this book does not simply offer a critique it also presents practical pathways to revitalise community education ensuring it continues to be a part of the struggle for a better world which the author argues can only be achieved through collective action The book is essential reading and a call to action for students educators activists and policymakers alike or indeed or anyone who is passionate about equality and social justice Majolica Mania Susan Weber,2021-01-12 The first comprehensive study of the most important ceramic innovation of the 19th century Colorful wildly imaginative and technically innovative majolica was functional and aesthetic ceramic ware Its subject matter reflects a range of 19th century preoccupations from botany and zoology to popular humor and the macabre Majolica Mania examines the medium s considerable impact from wares used in domestic settings to monumental pieces at the World s Fairs Essays by international experts address the extensive output of the originators and manufacturers in England including Minton Wedgwood and George Jones and the migration of English craftsmen to the U S New research including information on important American makers in New York Baltimore and Philadelphia is also featured Fully illustrated the book is enlivened by new photography of pieces from major museums and private collections in the U S and Great Britain *Using*

Graywater and Stormwater to Enhance Local Water Supplies National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Water Science and Technology Board, Committee on the Beneficial Use of Graywater and Stormwater: An Assessment of Risks, Costs, and Benefits, 2016-07-30 Chronic and episodic water shortages are becoming common in many regions of the United States and population growth in water scarce regions further compounds the challenges. Increasingly alternative water sources such as graywater untreated wastewater that does not include water from the toilet but generally includes water from bathroom sinks showers bathtubs clothes washers and laundry sinks and stormwater water from rainfall or snow that can be measured downstream in a pipe culvert or stream shortly after the precipitation event are being viewed as resources to supplement scarce water supplies rather than as waste to be discharged as rapidly as possible. Graywater and stormwater can serve a range of non potable uses including irrigation toilet flushing washing and cooling although treatment may be needed. Stormwater may also be used to recharge groundwater which may ultimately be tapped for potable use. In addition to providing additional sources of local water supply harvesting stormwater has many potential benefits including energy savings pollution prevention and reducing the impacts of urban development on urban streams. Similarly the reuse of graywater can enhance water supply reliability and extend the capacity of existing wastewater systems in growing cities. Despite the benefits of using local alternative water sources to address water demands many questions remain that have limited the broader application of graywater and stormwater capture and use. In particular limited information is available on the costs benefits and risks of these projects and beyond the simplest applications many state and local public health agencies have not developed regulatory frameworks for full use of these local water resources. To address these issues *Using Graywater and Stormwater to Enhance Local Water Supplies* analyzes the risks costs and benefits on various uses of graywater and stormwater. This report examines technical economic regulatory and social issues associated with graywater and stormwater capture for a range of uses including non potable urban uses irrigation and groundwater recharge. *Using Graywater and Stormwater to Enhance Local Water Supplies* considers the quality and suitability of water for reuse treatment and storage technologies and human health and environmental risks of water reuse. The findings and recommendations of this report will be valuable for water managers citizens of states under a current drought and local and state health and environmental agencies.

The 1970 UNESCO and 1995 UNIDROIT Conventions on Stolen or Illegally Transferred Cultural Property, 2024-02-06 The illicit traffic in cultural objects is a grave concern to the general public and international community. The resulting cultural damage fuels debates on how best to regulate the trade in cultural objects and inform legal responses at all levels for the protection of movable cultural heritage. Treaties concerning the treatment of cultural objects during peacetime and war represent some of the earliest multilateral initiatives on cultural heritage in the modern era. They also remain some of the most deeply contested representing shifting fault lines within the international community. Authored by leading scholars and practitioners from

around the world this Commentary is the first to cover the two leading multilateral treaties on movable cultural heritage in one volume the Convention on the Means of Prohibiting and Preventing the Illicit Import Export and Transfer of Ownership of Cultural Property adopted by UNESCO in 1970 and the Convention on Stolen or Illegally Exported Cultural Objects adopted by UNIDROIT in 1995 This Commentary is designed to be the authoritative text for academics lawyers policymakers and diplomats on the protection and regulation of cultural objects Encompassing both public and private international law rules on the trade in cultural objects it provides a detailed historical and thematic overview Drawing on the travaux préparatoires and intergovernmental and state practice over the last half century the Commentary provides an article by article analysis of the interpretation and application of these treaties The texts 1970 UNESCO and 1995 UNIDROIT Conventions are examined in the working context of other culture conventions including the World Heritage Convention and the Intangible Heritage Convention as well as related fields of international law such as international humanitarian law international criminal law human rights law and international economic law The volume also offers a critical examination of current trends and future directions which are informing the field

Contesting Leviathan Les Beldo, 2019-10-15 In 1999 off the coast of the Pacific Northwest the first gray whale in seven decades was killed by Makah whalers The hunt marked the return of a centuries old tradition and predictably set off a fierce political and environmental debate Whalers from the Makah Indian Tribe and antiwhaling activists have clashed for over twenty years with no end to this conflict in sight In *Contesting Leviathan* anthropologist Les Beldo describes the complex judicial and political climate for whale conservation in the United States and the limits of the current framework in which whales are treated as large fish managed by the National Marine Fisheries Service Emphasizing the moral dimension of the conflict between the Makah the US government and antiwhaling activists Beldo brings to light the lived ethics of human animal interaction as well as how different groups claim to speak for the whale the only silent party in this conflict A timely and sensitive study of a complicated issue this book calls into question anthropological expectations regarding who benefits from the exercise of state power in environmental conflicts especially where indigenous groups are involved Vividly told and rigorously argued *Contesting Leviathan* will appeal to anthropologists scholars of indigenous culture animal activists and any reader interested in the place of animals in contemporary life
