Banking's Final Exam Morris Goldstein, 2017-05-30 Spurred by the success of the first stress test of US banks toward the end of the global economic crisis in 2009 stress testing of large financial institutions has become the cornerstone of banking supervision worldwide The aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable In *Banking's Final Exam* one of the world's leading experts on banking regulation concludes that the tests administered on both sides of the Atlantic suffer from fundamental weaknesses leading to a false sense of reassurance about the safety and soundness of the banking system Some weaknesses can be corrected within the existing bank capital regime but others will require bold reforms including higher minimum capital requirements for the largest and most systemically important banks The banking industry is likely to resist these reforms but this book explains why their objections do not hold water

Overview: MELQO UNESCO, UNICEF, World Bank, Brookings Institution (USA). Center for Universal Education, 2017-08-14 The Measuring Early Learning Quality and Outcomes MELQO initiative began in 2014 as part of the global emphasis on early childhood development ECD Led by UNESCO the World Bank the Center for Universal Education at the Brookings Institution and UNICEF the initiative aims to promote feasible accurate and useful measurement of children's development and learning at the start of primary school and of the quality of their pre primary learning environments Items

are designed for children between the ages of 4 and 6 years Following the premise that many existing tools include similar items the leading organizations core team worked with a consortium of experts non governmental organizations NGOs and multilaterals to build upon current measurement tools to create a common set of items organized into modules for measuring 1 early childhood development and learning and 2 the quality of pre primary learning environments The MELQO core team and experts also collaborated to outline a process for context specific adaptation of the measurement modules resulting from lessons learned from field testing in several countries in 2015 and 2016 The modules are designed to be implemented at scale with an emphasis on feasibility for low and middle income countries LMICs A key question addressed by MELQO was the balance between a global tool suitable for use everywhere and local priorities and goals for children s development

A Brief Overview of China's ETS Pilots Daiqing Zhao,Wenjun Wang,Zhigang Luo,2018-08-27 This book systematically introduces readers to the framework of China s ETS pilots exploring their design and operating process the current state of the carbon market and various barriers encountered To do so it deconstructs the Guangdong ETS which is the largest and

most representative of China's seven ETS pilots. The book subsequently describes and evaluates all seven pilots in terms of their efficiency, macro and micro effects, the method involved in the DEA model, the CGE model, and cost-benefit analysis. In turn, in the assessment section, it demonstrates how some ETS pilots have failed to control carbon emissions due to inordinately high emissions quotas issued by the local government, etc. Further, it argues that ETS should focus on those industries with large emissions and high mitigating potential for the time being and then gradually expand the scale of its coverage. As China's national ETS is slated for launch on the basis of the lessons learned from the ETS pilots, the book offers a timely and valuable resource for all those who want to understand and forecast the development of China's ETS. It includes a wealth of descriptions and explanations of Chinese government policies involving carbon emissions control, making it a unique resource.

Hong Kong Chronicles: Overview & Chronology Hong Kong Chronicles Institute, 2022-06-30
Overview Chronology is the first title of the book series Hong Kong Chronicles by Hong Kong Chronicles Institute. It presents a detailed overview of Hong Kong's local history and more than 6,500 major historical events taking place between ancient times and 2017. The book series consists of 66 volumes to be released in 42 books with 25 million words and completed in phases by 2027. It covers a historical timeline of 7,000 years from the New Stone Age (5,000 B.C.) to the inauguration of the fifth term of the HKSAR government on July 1, 2017. It includes 10 major categories including nature, economy, culture, society, politics, and people, etc. Local chronicles have the important functions of preserving history, providing reference for policymaking, and educating the people. Through the compilation of local chronicles, it serves to seek out, preserve, and promote the stories of people, their socio-economic development, and way of life, as well as political structure. It plays an important role of cultural significance in driving the future by reflecting on the past. The book series is of profound historical significance and cultural value as an accurate, objective, systematic, and comprehensive record of 7,000 years of Hong Kong's transformation.

An Overview of Islamic Finance Mr. Mumtaz Hussain, Asghar Shahmoradi, Rima Turk, 2015-06-02
Islamic finance has started to grow in international finance across the globe with some concentration in few countries. Nearly 20 percent annual growth of Islamic finance in recent years seems to point to its resilience and broad appeal, partly owing to principles that govern Islamic financial activities, including equity participation and ownership. In theory, Islamic finance is resilient to shocks because of its emphasis on risk sharing, limits on excessive risk-taking, and strong link to real activities. Empirical evidence on the stability of Islamic banks, however, is so far mixed. While these banks face similar risks as conventional banks do, they are also exposed to idiosyncratic risks, necessitating a tailoring of current risk management practices. The macroeconomic policy implications of the rapid expansion of Islamic finance are far-reaching and need careful considerations.

2017 Regional Overview of Food Security and Nutrition in Africa Food and Agriculture Organization of the United Nations, 2018-04-17 This year s edition of the Africa Regional Overview of Food Security and Nutrition reports that after a prolonged decline hunger appears to be on the rise In sub Saharan Africa there were about 224 million undernourished people in sub Saharan Africa in 2016 up from 200 million in 2015 In many countries the worsening situation in 2015 and 2016 can be attributed to adverse climatic conditions often linked to the El Ni o phenomenon resulting in poor harvests and the loss of livestock Conflict sometimes in combination with drought or floods also contributed to severe food insecurity in several countries Lower commodity prices and a difficult global economic environment have furthermore contributed to the worsening food security situation The worrying trend in undernourishment is not yet reflected in the series of indicators referring to nutritional outcomes in the region with the prevalence of stunting and wasting for children under the age of five continuing to decline gradually However progress towards the World Health Assembly global nutrition targets has been generally poor While a relatively large proportion of countries are on track to

meeting the target for overweight in children the rates for adult obesity are soaring in all regions and are especially high in Southern Africa The report also finds that across the board countries have developed and are developing policy frameworks and investment plans that are aligned or efforts are being made to align them with the goals of the Malabo Declaration and SDG 2 Through CAADP policy processes are coherent and this initiative has raised the profile of agriculture and heavily influenced agricultural policy at regional and national levels However the worrying trends in undernourishment underline the need for even greater efforts to achieve the SDG 2 by 2030 The thematic part of the report focuses on the food security and nutrition conflict nexus Conflict is not only an increasingly important cause of food insecurity and malnutrition but food insecurity and malnutrition can also become conflict multipliers Addressing the causes of conflicts and supporting food security and livelihoods can help build resilience to conflict and contribute to sustaining peace www.owaysonline.com

Nutrition 2018 Food and Agriculture Organization of the United Nations, United Nations Economic Commission for

Africa, 2019-03-04 This year's edition of the Africa Regional Overview of Food Security and Nutrition reports that the food

security situation on the continent continues to worsen For Africa 20.4 percent of the continent's population 257 million

people are undernourished up from 19.7 in 2016 241 million people In sub-Saharan Africa there are 237 million

undernourished in 2017 up from 222 million in 2016 The worsening situation in Africa is due to difficult global economic

conditions and in many countries conflict and climate related disasters sometimes in combination Economic growth slowed in

2016 due to weak commodity prices in particular for oil and minerals Food insecurity has worsened in countries affected by

conflict often exacerbated by drought or floods and in Southern and Eastern Africa many countries have been adversely

affected by prolonged drought Notably several countries have achieved sustained progress in reducing food insecurity in the

face of challenging circumstances The deterioration of the food security situation and the lack of progress towards the WHO

global nutrition targets makes it imperative for countries to step up their efforts if they are to achieve a world without hunger

and malnutrition by 2030 The need for greater efforts also emerges clearly from the findings of the inaugural biennial review

of progress in implementing the goals of the Malabo Declaration In addition to specific food security and nutrition policies

this year's report reviews four important cross-cutting topics namely youth employment remittances intraregional trade and

climate change It highlights their interplay with the food system and their role in food security and nutrition The thematic

part of the report presents an evidence-based assessment of the threat posed by more frequent occurrences of climate

extremes and rising climate variability to food security and nutrition in the region Climate change in combination with poor

development planning poverty and environmental degradation increases the risk of a climate event becoming a disaster A

collective approach that combines climate change adaptation with disaster resilient development is an opportunity to address climate and disaster risks within the context of broader development goals

30 years of the Comet Assay: an overview with some new insights Amaya Azqueta, Sabine Langie, Andrew Collins, 2015-08-21 By means of this Frontiers in Genetics research topic we are celebrating 30 years of the Comet Assay The first paper on this single cell gel electrophoresis assay was published in 1984 by O Ostling and K J Johanson Biochem Biophys Res Commun Vol 123 291 298 The comet assay is a versatile and sensitive method for measuring single and double strand breaks in DNA By including lesion specific enzymes in the assay its range and sensitivity are greatly increased but it is important to bear in mind that their specificity is not absolute The comet assay with and without inclusion of lesion specific enzymes is widely used as a biomarker assay in human population studies primarily to measure DNA damage but increasingly also to assess the capacity of cells for DNA repair Ostling and Johanson Biochem Biophys Res Commun 1984 were also the first to report experiments to measure DNA repair by simply following the decrease of DNA damage over time after challenging cells with ionising radiation However this approach is time consuming and laborious as it requires an extended period of cell culture and is therefore not ideal for biomonitoring studies which typically require high throughput processing of many samples As an alternative approach the in vitro comet based repair assay was developed a cell extract is incubated with a DNA substrate containing specific lesions and DNA incisions accumulate The in vitro comet based repair assay has been modified and improved over the past decade it was first devised to measure base excision repair of oxidised purines in lymphocytes Collins et al Mutagenesis 2001 but has since been adapted for other lesions and thus other repair pathways as well as being applied to tissue samples in addition to cell suspensions Even after 30 years the comet assay is still in a growth phase with many new users each year Many questions are repeatedly raised which may seem to have self evident answers but clearly it is necessary to reiterate them for the benefit of the new audience and sometimes being forced to think again about old topics can shed new light Different applications of the comet assay are discussed in this special issue including genotoxicity testing in different organisms human biomonitoring DNA repair studies environmental biomonitoring and clinical studies Furthermore we consider and where possible answer questions including the ones raised by Raymond Tice at the 8th International Comet Assay Workshop in Perugia Italy 2009 What is the spectrum of DNA damage detected by the various versions of the comet assay What are the limitations associated with each application What should be done to standardize the assay for biomonitoring studies Can the comet assay be used to monitor changes in global methylation status What cell types are suitable for detecting genotoxic substances and their effects in vivo and in vitro Can the assay be fully automated and more So this Frontiers in Genetics research topic is written for the beginner as well as for the experienced users of the comet assay

World aquaculture 2015: a brief overview Food and Agriculture Organization of the United Nations, 2018-05-31 FAO Fisheries and Aquaculture Circulars Global aquaculture production in 2015 reached 106 million tonnes with an estimated value of US 163 billion

although the average annual growth rate of world aquatic animal production slowed to 6.4 percent in the period 2001-2015. Bringing together information from six regional reviews, this report examines how the aquaculture sector has performed over the past five years and draws lessons for ensuring sustainable growth and expansion in the years ahead. 2015 Li Yuming, Li Wei, 2021-01-18. China, with the world's largest population, numerous ethnic groups, and vast geographical space, is also rich in languages. Since 2006, China's State Language Commission has been publishing annual reports on what is called language life in China. These reports cover language policy and planning initiatives at the national, provincial, and local levels; new trends in language use in a variety of social domains; and major events concerning languages in mainland China, Hong Kong, Macau, and Taiwan. Now, for the first time, these reports are available in English for anyone interested in Chinese language and linguistics, China's language education and social policies, as well as everyday language use among the ordinary people in China. The invaluable data contained in these reports provide an essential reference to researchers, professionals, policy makers, and China watchers. voltage regulator wikipedia - Apr 07 2022

a voltage regulator is a system designed to automatically maintain a constant voltage it may use a simple feed forward design or may include negative feedback it may use an electromechanical mechanism or electronic components

voltage regulators siemens energy global - Mar 06 2022

it is a single phase 5 8 step regulator utilizing the siemens energy type mj4 or mj6 control panel or adaptable to any control panel features and benefits accessories options technical data applicable for the us market

automatic voltage regulator user s manual abb - Nov 14 2022

ea63 5 is an automatic voltage regulator avr for amg synchronous generator industrial application series the avr is typically supplied by a single phase auxiliary winding wound into the stator slots it also can be supplied by permanent magnet generator pmg or phase voltage of main terminal

avr guide phases and phase regulation ust - Oct 13 2022

phases and phase regulation automatic voltage regulators can be designed for single phase or three phase ac applications it is common for utilities to use single phase automatic voltage regulators ganged together to provide voltage regulation for three phase

a novel digital automatic voltage regulator for ieee xplore - Aug 11 2022

oct 28 2010 abstract in this paper a digital signal processor dsp based automatic voltage regulator avr for synchronous generator is proposed analysis and development of the proposed regulator is done by both computer simulations and dsp implementation

robust avr design for the synchronous generator researchgate - Mar 18 2023

apr 4 2019 conventional automatic voltage regulator avr schemes use thyristor based rectifiers in which the generator field voltage is varied by changing the thyristor s firing angle the

robust avr design for the synchronous generator - Sep 12 2022

apr 4 2021 abstract conventional automatic voltage regulator avr schemes use thyristor based rectifiers in which the generator field voltage is varied by changing the thyristor s firing angle the conventional avr has been known to cause voltage sags and extended under voltages especially under fault conditions

automatic voltage regulator avr mecc alte - Jul 10 2022

born as a dsr evolution it is building is extra feature such as single and three phases sensing automatic detection higher flexibility in remote voltage control soft start and a voltage precision of 0 5 in static condition

microcontroller based single phase automatic voltage regulator - Jun 21 2023

jul 11 2010 abstract this paper proposes the design and implementation of a microcontroller based single phase automatic voltage regulator avr the basic building blocks for this design include a pic 16f 628 microcontroller a triac a step up transformer a zero crossing circuitry and a load voltage sensing circuitry

automatic voltage regulator design using a modified adaptive - Jan 16 2023

jan 1 2019 abstract in this paper an online adaptive optimal controller is firstly designed to optimize the performance of an automatic voltage regulator avr towards this end an optimal quadratic tracking problem is defined based on the error between the synchronous generator s terminal voltage and its desired value

automatic voltage regulator design for single phase generator - May 08 2022

the objective of this work involves developing a single phase automatic voltage regulator for the synchronous machine to be used in micro hydro power plant the control strategy is aimed to generate and deliver power to the

single phase automatic voltage regulator design ijsr - Aug 23 2023

single phase automatic voltage regulator design for synchronous generator matthew e oboh jafaru braimah abstract the automatic voltage regulator is widely used in industrial application to obtain the stability and good of different electrical apparatus in order to get output of the alternator the field excitation is controlled by the

pdf a new type single phase switching voltage regulator - Jun 09 2022

oct 16 2010 a 5 kva single phase voltage regulator is realized to verify the operation of the proposed algorithm the experimental results show that regulator maintains constant voltage across the load both

microcontroller based single phase automatic voltage regulator - Dec 15 2022

this paper proposes the design and implementation of a microcontroller based single phase automatic voltage regulator avr the basic building blocks for this design include a pic 16f 628 microcontroller a triac a step up transformer a zero crossing
