Literary Studies in China Ying Fang, Robert T. Tally Jr., 2022-11-14 *Spatial Literary Studies in China* explores the range of vibrant and innovative research being done in China today Chinese scholars have been exploring spatially oriented literary criticism in two different and mutually reinforcing directions the first has focused on the study of Western literature especially U S and European texts and theory and the second has examined Chinese cultures texts and spaces This collection of essays demonstrates Chinese scholars insightful interpretation evaluation and innovative application of international spatial analyses theories and methodologies as well as their inspiring exploration and reconstruction of distinctively Chinese critical and theoretical discourses For the first time in English the essays in this volume demonstrate the vitality of literary geography geocriticism and the spatial humanities in China in the twenty first century

Identity Intersectionalities, Mentoring, and Work-Life (Im)Balance Katherine Cumings Mansfield, Anjalé D. Welton, Pei Ling Lee, 2016-08-01 Identity matters Who we are in terms of our intersecting identities such as gender race social class disability geography and religion are integral to who we are and how we navigate work and life Unfortunately many people have yet to grasp this understanding and as a result so many of our work spaces lack appropriate responses to what this means Therefore Identity Intersectionalities Mentoring and Work life Im balance Educators Re negotiate the Personal Professional and Political the most recent installment of the work life balance series uses an intersectional perspective to critically examine the concept of work life balance In an effort to build on the first book in the series that focused on professors in educational leadership preparation programs the authors here represent educators across the P 20 pipeline primary and secondary schools in addition to higher education This book is also unique in that it includes the voices of practitioners students and academics from a variety of related disciplines within the education profession enabling the editors to include a diverse group of educators whose many voices speak to work life balance in unique and very personal ways Contributing authors challenge whether the concept of work life balance might be conceived as a privileged and even an impractical endeavor Yet the bottom line is conceptions of work life balance are exceptionally complex and vary widely depending on one s many roles and intersecting identities Moreover this book considers how mentoring is important to negotiating the politics that come with balancing work and life especially if those intersecting identities are frequently associated with unsolicited stereotypes that impede upon one s academic professional and personal pursuits in life Finally the editors argue that the power to authentically be ourselves is not only important to individual success but also beneficial to fostering an institutional culture and climate that is truly supportive of and responsive to diversity equity and justice Taken together the voices in this book are a clarion call for P 12 and higher education professionals and organizations to envision how identity intersectionalities might become an every day understanding a normalized appreciation and a customary commitment that translates into policy and practice
