The Complacent Class Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen's blog *Marginal Revolution* is the first thing I read every morning And his brilliant new book *The Complacent Class* has been on my nightstand after I devoured it in one sitting I am at round the clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we're working harder than ever to avoid change We're moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match.com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We're more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them

heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

Digital Geographies—Theory, Space, and Communities Abdul Shaban, 2025-01-02 This machine generated volume with chapter introductions by the human expert showcases how digital technologies are having deep transformative impacts on geographies and temporalities of social political economic and personal lives They are altering perceptions and physicality of space and time They are giving birth to digital communities and societies where distance remains of little significance Virtual spaces and ICT have disrupted state sovereignties often liquidating their physical national boundaries The rise of the digital economy shows that new important raw materials for the future are information rather than coal oil and minerals Digitalisation is also leading to several contradictory processes of democratisation rising welfare of the citizens as well as surveillance peripheralisation and exclusion States are taking pride in digitalising their services to the citizens with massive consequences on the welfare of those facing digital divides As a departure to and in addition to the usual understanding of digitalisation society and space the present volume engages with some of the critical questions while reviewing existing literature What are the space relations of digital technologies What are the forms and consequences of changing physical space human relations to digital space human relations How is the sense of time and space changing with pervasive performatives of in real time and virtual realities or with perceptible or portable spaces In what ways does digitalisation relate to knowledge and power Why and how must we theorise the digitalisation led transformative processes of sociality materiality and their spatialities The book will be useful for teachers researchers and students engaged in this new area of digital geography especially in social science and its subfields of sociology economics political sciences anthropology psychology development studies policy studies social work urban studies and planning For the full picture the volume can be read in combination with its companion volume on Digital Geographies Urbanisation Economy and Modelling

Australia's Refugee Politics in the 21st Century Kim Huynh, 2023-06-23 Boat arrivals have defined and divided 21st century Australia This book examines the Stop the Boats era from between the 2013 and 2022 federal elections During this time the dominant political view has been that to accept a single boat family or person is to risk being overwhelmed by many others It follows that government must do whatever it takes to command Australia's borders and deter unauthorized arrivals that is Stop the Boats This book sets out the key political events and arguments for and against Australia's assurance that anyone who comes without permission will never be able to stay It examines the impact of this commitment on regional and international relations on those who seek refuge in

Australia and on those who call it home This volume serves as a valuable political history and analysis for scholars policymakers students journalists and anyone who is interested in questions of contemporary exclusion and belonging

Geographers Elizabeth Baigent, André Reyes Novaes, 2018-11-15 Geographers Biobibliographical Studies Volume 37 explores the concept of distinction in geography Through the lives of six geographers working in Brazil North America Europe and R union it investigates what distinction consists of how we identify and celebrate it and how it relates to quotidian practices in the discipline The volume highlights the continuing importance of biography and the International Geographical Union in recording and assessing distinction It also considers the relevance of personal networks for the circulation and translation of distinguished geographical knowledge and how this knowledge can underpin applied projects and critical appraisal of geographical scholarship both at a national and sub national level Gendered notions of distinction are also addressed particularly through June Sheppard who found limited recognition for her work as a result of gendered expectations within the discipline and society at large By reflecting on how we locate distinguished geographers and tell their histories Geographers Biobibliographical Studies Volume 37 makes an important contribution to fostering less canonical work in historical geography
