Reshaping Graduate Education Through Innovation and Experiential Learning

Jenkins, Toby S., 2020-10-16 Discussions on the importance and impact of pedagogical practice on students as whole persons are often concentrated on the P 12 or undergraduate learning experience In higher education many institutions do an outstanding job of complicating the undergraduate classroom to include civic engagement community based learning education abroad social action and project based learning But what about the graduate classroom While there are indeed numerous graduate programs that push students to interact with strong meaningful difficult and sometimes harsh facts scholarship and ideologies the instructional methods have largely remained stagnant New methods of constructing deep and meaningful learning in graduate education is essential for the transformation and continued evolution of graduate school instruction Reshaping Graduate Education Through Innovation and Experiential Learning is a crucial reference book that offers practice based reflections on efforts to infuse creativity social action engaged learning or other creative interventions into the graduate classroom The book includes personal narratives that are grounded in pedagogical perspectives from graduate school instructors who share their experiences with innovative and transformative teaching practices The goal of the book is to encourage graduate school professors to engage social justice education as something to be experienced and practiced in their courses and not just as a concept to be studied As such the book covers topics such as self directed learning counseling and community mapping It is ideal for graduate level instructors in the field of education and other related social science areas as well as junior faculty as they establish a teaching practice or veteran faculty seeking creative transformation

Journal of the Physical Society of Japan, 2014 The Budget of the United States Government United States. Bureau of the Budget, 1938 **Collecting for the Curriculum** Amy J. Catalano, 2015-09-28 If you're a librarian

charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K-12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children's literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials
