Lloyd, 2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn

from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this Content INTRODUCTION by Arma an Teke Lloyd PART A Ideology and Governance of Migration CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin CHAPTER 2 A Forest with many trees Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli Rebecca Mavin and Giorgia Trasciani CHAPTER 3 Policing Migrants in Transit and Upon Arrival The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson PART B Regulations Suspension of Human Rights CHAPTER 4 Borders Exception and Sovereignty Australia s Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu CHAPTER 5 Power and Sandwiched Sovereignty Nepali Migrant Workers in the Gulf Countries by Hari KC CHAPTER 6 The Body and Embodied Experiences in the British Asylum System Developing a Conceptual Perspective by Rebecca Mavin CHAPTER 7 Eritrean Unaccompanied Refugee Minors in The Netherlands Wellbeing and Health by Anna de Haan Yodit Jacob Trudy Mooren and Winta Ghebreab PART C Migrants Strategies and Identities CHAPTER 8 Social Inclusion Processes for unaccompanied minors in the city of Palermo Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou CHAPTER 9 Urban Resistances and Migrant Activism Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas CHAPTER 10 RefConnect A Mobile Social Network for Refugees by Evdokia Kogia Styliani Liberopoulou Nikolaos Alamanos Vasilis Pierros and Christos Michalakelis CHAPTER 11 Halo Halo Nostalgia and Navigating Life for Overseas Filipino Workers OFW s in the Kingdom of Saudi Arabia by Simeon S Magliveras

*Legal Phantoms* Susan Bibler Coutin, Jennifer M. Chacón, Stephen Lee, 2024-01-30 The 2012 Deferred Action for Childhood Arrivals DACA program was supposed to be a stepping stone a policy innovation announced by the White House designed to put pressure on Congress for a broader lasting set of legislative changes Those changes never materialized and the people who hoped to benefit from them have been forced to navigate a tense and contradictory policy landscape ever since haunted by these unfulfilled promises *Legal Phantoms* tells their story After Congress failed to pass a comprehensive immigration bill in 2013 President Obama pivoted in 2014 to supplementing DACA with a deferred action program known as DAPA for the parents of citizens and lawful permanent residents and a DACA expansion DACA in 2014 But challenges from Republican led states prevented even these programs from going into effect Interviews with would be applicants immigrant rights advocates and government officials reveal how such failed immigration reform efforts continue to affect not only those who had hoped to benefit but their families communities and the country in which they have made an uneasy home Out of the ashes of these lost dreams though people find their own paths forward through uncharted legal territory with creativity and resistance

[HC 369 - Devolution: The Next Five Years and Beyond](#) Great Britain. Parliament. House of Commons. Communities and Local Government Committee, 2016 The Government has announced a devolution revolution transferring powers and opportunities to local government through a series of devolution deals The Cities and Local Government Devolution Bill gives statutory authority to deals and enables some of the specific reforms the Government wishes to make such as introducing directly elected mayors for combined authorities This inquiry

set out to examine the contents of the Bill and in particular whether Greater Manchester's deal is a model for other areas but its scope quickly widened to a review of the way in which devolution in England is proceeding The Committee has identified various aspects of the current approach that it recommends are refined and improved The Committee has found a significant lack of public consultation and engagement at all stages in the devolution process The public should be engaged in the preparation of devolution proposals insofar as possible during the negotiations and once the results of a deal have begun to make an impact and communicated to throughout the process This is particularly the case for health devolution where the systems in place are complex changes are consequently more difficult to understand and the public's response is likely to be more emotional The Committee also believes that the Government's approach to devolution in practice has lacked rigour as to process there are no clear measurable objectives for devolution It suggests various ways in which proper process can be ensured

**The Meritocracy Trap** Daniel Markovits, 2019-09-10 This book flips your world upside down Daniel Markovits argues that meritocracy isn't a virtuous efficient system that rewards the best and brightest Instead it rewards middle class families who can afford huge investments in their children's education Frightening eye opening stuff The Times Books of the Year Even in the midst of runaway economic inequality and dangerous social division it remains an axiom of modern life that meritocracy reigns supreme and promises to open opportunity to all The idea that reward should follow ability and effort is so entrenched in our psyche that even as society divides itself at almost every turn all sides can be heard repeating meritocratic notions Meritocracy cuts to the heart of who we think we are But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy's successes This is the radical argument that The Meritocracy Trap prosecutes with rare force comprehensive research and devastating persuasion Daniel Markovits a law professor trained in philosophy and economics is better placed than most to puncture one of the dominant ideas of our age Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within as well as how we can take the first steps towards a world that might afford us both prosperity and dignity

Deepening Neoliberalism, Austerity, and Crisis Julien Mercille, Enda Murphy, 2015-07-07 From bank bailouts to austerity Europe's and Ireland's response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland's crisis resolution

**The Middle and Upper Paleolithic Archeology of the Levant and Beyond** Yoshihiro

Nishiaki, Takeru Akazawa, 2017-12-06 This volume is a compilation of results from sessions of the Second International Conference on the Replacement of Neanderthals by Modern Humans which took place between November 30 and December 6 2014 in Hokkaido Japan Similar to the first conference held in 2012 in Tokyo the 2014 conference RNMH2014 aimed to compile the results of the latest multidisciplinary approaches investigating the issues surrounding the replacement of Neanderthals by modern humans The results of the sessions supplemented by off site contributions center on the archeology of the Middle and Upper Paleolithic of the Levant and beyond The first part of this volume presents recent findings from the Levant while the second part focuses on the neighboring regions namely the Caucasus the Zagros and South Asia The 13 chapters in this volume highlight the distinct nature of the cultural occurrences during the Middle and Upper Paleolithic periods of the Levant displaying a continuous development as well as a combination of lithic traditions that may have originated in different regions This syncretism which is an unusual occurrence in the regions discussed in this volume reinforces the importance of the Levant as a region for interpreting the RNMH phenomenon in West Asia Sand, Snow, and Stardust Gretchen Heefner, 2025-05-05 A vivid tour of US military efforts to understand survive and command harsh environments worldwide and beyond Deserts the Arctic outer space these extreme environments are often seen as inhospitable places at the edges of our maps But from the 1940s through the 1960s spurred by the diverse and unfamiliar regions the US military had navigated during World War II the United States defense establishment took a keen interest in these places dispatching troops to the Aleutian Islands North Africa the South Pacific and beyond To preserve the country's status as a superpower after the war to pave runways and build bridges engineers had to understand and then conquer dunes permafrost and even the surface of the moon Sand Snow and Stardust explores how the US military generated a new understanding of these environments and attempted to master them intending to cement America's planetary power Operating in these regions depended as much on scientific and cultural knowledge as on military expertise and technology From General George S Patton learning the hard way that the desert is not always hot to the challenges of constructing a scientific research base under the Arctic ice to the sheer implausibility of modeling Martian environments on Earth Gretchen Heefner takes us on a wry expedition into the extremes and introduces us to the people who have shaped our insight into these extraordinary environments Even decades after the first manned space flight plans for human space exploration and extraplanetary colonization are still based on what we know about stark habitats on Earth An entertaining survey of the relationship between environmental history and military might Sand Snow and Stardust also serves as a warning about the further transformation of the planet whether through desertification melting ice caps or attempts to escape it entirely The Politics of Immigration Tom K. Wong, 2017 Immigration has been deeply woven into the fabric of American nation building since the founding of the Republic Indeed immigrants have played an integral role in American history but they are also intricately tied to America's present and will feature prominently in America's future Immigration can shape a nation

Consequently immigration policy can maintain replenish and even reshape it Immigration policy debates are thus seldom just about who to let in and how many as a nation s immigration policies can define its identity This is what helps breathe fire into the politics of immigration Against this backdrop political parties promote their own narratives about what the immigration policies of a nation of immigrants should be while undermining the contrasting narratives of political opponents Racial and ethnic groups mobilize for political inclusion as immigration increases their numbers but are often confronted by the counteractive mobilization of nativist groups Legislators calibrate their positions on immigration by weighing traditional electoral concerns against a new demographic normal that is reshaping the American electorate At stake are not just what our immigration policies will be but also what America can become What are the determinants of immigration policymaking in the United States The Politics of Immigration focuses the analytical lens on the electoral incentives that legislators in Congress have to support or oppose immigration policy reforms at the federal level In contrast to previous arguments Tom K Wong argues that contemporary immigration politics in the United States can be characterized by three underlying features the entrenchment of partisan divides among legislators on the issue of immigration the political implications of the demographic changes that are reshaping the American electorate and how these changes are creating new opportunities to define what it means to be an American in a period of unprecedented national origins racial and ethnic and cultural diversity

Sanctuary and Asylum Linda Rabben,2016-09-01 The practice of sanctuary giving refuge to the threatened vulnerable stranger may be universal among humans From primate populations to ancient religious traditions to the modern legal institution of asylum anthropologist Linda Rabben explores the long history of sanctuary and analyzes modern asylum policies in North America Europe and elsewhere contrasting them with the role that courageous individuals and organizations have played in offering refuge to survivors of torture persecution and discrimination Rabben gives close attention to the mid 2010s refugee crisis in Europe and to Central Americans seeking asylum in the United States This wide ranging timely and carefully documented account draws on Rabben s experiences as a human rights advocate as well as her training as an anthropologist Sanctuary and Asylum will help citizens professionals and policy makers take informed and compassionate action A Capell Family Book      **Background Notes on Sustainable, Productive and Resilient**
