 - (b) is experiencing, or is at risk of, abuse or neglect, and
 - (c) as a result of those needs is unable to protect himself or herself against the abuse or neglect or the risk of it.
- It is really important to consider part (c) carefully, and this is something you may want to discuss in a 'pre-referral consultation'.

Nijs, 2016-01-26 In today's increasingly globalized environment many economic fundamentals need to be reconsidered in order to regain stability in the global marketplace One such consideration is the failing dynamics of the international tax infrastructure Neoliberalism 2.0 brings a 21st century assessment of the Pigovian taxes considering a completely new calibration of the international tax systems inspired by the historically developed Pigovian tax model The book considers the impact neoliberalism had and will have on regulatory infrastructure democracy in an era of globalization and reduced legitimization of the national state The Pigovian model brings home the often forgotten relationship between taxation as a part of the regulatory sphere macro economics and the political philosophical context in which law and economics emerge The model also takes into account the phenomena of globalization and financialization and is tested using the financial sector as an example This book addresses the many challenges a Pigovian shift would imply for the sovereign and its national economies Neoliberalism 2.0 demonstrates the ability to design a
