Commodity Culture in Dickens's Household Words Catherine Waters, 2008 From 1850 to 1859 Charles Dickens conducted *Household Words* a weekly miscellany intended to instruct and entertain predominantly middle class readers He filled the journal with articles about various commodities many of which raise questions about how far society should go in permitting people to buy and sell goods and services Although studies of Victorian commodity culture have tended to focus on the novel scholarly interest in Victorian periodicals and material culture has been prompted by recognition of the major role the press played in disseminating knowledge and information about the proliferating world of goods At the same time periodicals like *Household Words* were themselves commodities that relied on their marketability for survival This book provides a cultural study of the journal's representation of commodities that records the changing relationship between people and things exposed in the contributors' attempts to come to terms with the development of urban commodity culture at mid century *Dickens's Idiomatic Imagination* Peter J. Capuano, 2023-12-15 Dickens's *Idiomatic Imagination* offers an original analysis of how Charles Dickens's use of low and slangular his neologism language allowed him to express and develop his most sophisticated ideas Using a hybrid of digital distant and analogue close reading methodologies Peter J. Anatomy Live Maaike Bleeker, 2008 Gross anatomy the study of anatomical structures that can be seen by unassisted vision has long been a subject of fascination for artists For most modern viewers however the anatomy lesson the technically precise province of clinical surgeons and medical faculties hardly seems the proper breeding ground for the hybrid workings of art and theory We forget that in its early stages anatomy pursued the highly theatrical spirit of Renaissance science as

painters such as Rembrandt and Da Vinci and medical instructors like Fabricius of Aquapendente shared audiences devoted to the workings of the human body Anatomy Live Performance and the Operating Theatre a remarkable consideration of new developments on the stage as well as in contemporary writings of theorists such as Donna Haraway and Brian Massumi turns our modern notions of the dissecting table on its head using anatomical theatre as a means of obtaining a fresh perspective on representations of the body conceptions of subjectivity and own knowledge about science and the stage Critically dissecting well known exhibitions like Body Worlds and The Visible Human Project and featuring contributions from a number of diverse scholars on such subjects as the construction of spectatorship and the implications of anatomical history Anatomy Live is not to be missed by anyone with an interest in this engaging intersection of science and artistic practice
