Nervous System Study Guide

Introduction:

The nervous system is the master coordinating system of the body. Every thought, action, and sensation reflects its activity. Because of its complexity, the structures of the nervous system are described in terms of two principal divisions—the central nervous system (CNS) and the peripheral nervous system (PNS). The CNS, consisting of the brain and spinal cord, interprets incoming sensory information and issues instructions based on past experience. The PNS, consisting of cranial and spinal nerves and ganglia, provides the communication lines between the CNS and the body's muscles, glands, and sensory receptors. The nervous system is also divided functionally in terms of motor activities into the somatic and autonomic divisions. It is important, however, to recognize that these classifications are made for the sake of convenience and that the nervous system acts in an integrated manner both structurally and functionally.

Questions:

1. List the three major functions of the nervous system.

- a. Sensations (sensory input)
- b. Interpretation (integration of info)
- c. Response (commands responses)

2. Choose the key responses that best correspond to the descriptions provided in the following statements. Insert the appropriate letter or term in the answer blanks.

KEY CHOICES: A. Autonomic nervous system B. Central nervous system
 C. Peripheral nervous system D. Somatic nervous system

- B 1. Nervous system subdivision that is composed of the brain and spinal cord.
- D 2. Subdivision of the PNS that controls voluntary activities such as the activation of skeletal muscles.
- C 3. Nervous system subdivision that is composed of the cranial and spinal nerves and ganglia.
- A 4. Subdivision of the PNS that regulates the activity of the heart and smooth muscle and of glands; it is also called the involuntary nervous system.
- B 5. A major subdivision of the nervous system that interprets incoming information and issues orders.
- C 6. A major subdivision of the nervous system that serves as communication lines, linking all parts of the body to the CNS.

Anatomy And Physiology Marieb Answer Key Nervous

Samuel Wong

Anatomy And Physiology Marieb Answer Key Nervous:

Anatomy & Physiology Elaine Nicpon Marieb,2005 *Human Anatomy and Physiology* Elaine N. Marieb,1989

Questions and Answers in Pain Medicine Michael Suer,Nalini Sehgal,2021-02-24 This book provides a practical and comprehensive review of pain medicine in a clear and easy to apply question and answer format Divided by topic the book includes Q As on Pain Basics Psychology Common Pain Syndromes Medications Pain Management in Special Populations and Interventional Pain It is intended as a guide for residents and fellows and is written in such a manner to provide instantaneous feedback on correct answer choice and explanation for self evaluation while preparing for written board examinations Questions and Answers in Pain Medicine A Guide to Board Exams fulfills the need for a resource that is similar to the Accreditation Council for Graduate Medical Education ACGME board examination in the US as well as international equivalents It utilizes a fully Q A approach which is how many students prefer to study Written by a physician who has recently passed the ACGME written board exam and the founder of a pain management fellowship program for nearly 20 years the authors provide valuable insight for successfully undertaking board examinations in pain medicine **Human**
