Charging Ahead David Welch,2022-09-20 Mary Barra's quest to move GM to a manufacturer of electric cars has captured
 the attention of automobile aficionados green business advocates and leaders of all types who have to admire Mary's
 toughness in moving forward despite the overwhelming obstacles in her path A decade ago no one would have guessed that
 GM would be the company poised to lead America into the future At a time when business book readers seem endlessly
 fascinated by soaring tech giants like Amazon and Netflix and ill fated startups like WeWork and Theranos why is it
 important to put the spotlight back on 112 year old GM Because Charlie Wilson's quip from 1952 is still true What's good for
 GM is still good for America and vice versa America needs to transition to a new era of clean energy and environmentally
 sustainable transportation We also need to adapt to a world with far fewer assembly line jobs but far more skilled jobs for
 people who can design build and operate robots and other high tech machines GM's attempt to lead those transitions is as
 important as it is dramatic Equally compelling is the story of GM's CEO Mary Barra who against all odds took the reins at GM
 in 2014 Since that time she has attempted to reinvent a century old company and equip it for the biggest change in
 transportation since the internal combustion engine replaced the horse In the process she has been ripping out GM traditions
 by the roots and taking flak from all sides Her plan is to make GM the company famed for the gas burning Corvette hulking
 Cadillac Escalade and carbon spewing Silverado pickup purely electric and clean by 2035 She may not be as wealthy as Jeff
 Bezos as brash as Elon Musk or as powerful as Mark Zuckerberg but Mary Barra is just as important as any of them And as
