Edmonston,2009-02-16 For the first time in one volume Phil Edmonston Canada s automotive Dr Phil covers all used vehicles packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years Lemon-Aid Used Cars and Trucks 2010-2011 Phil Edmonston,2010-05-11 The automotive maven and

former Member of Parliament might be the most trusted man in Canada an inverse relationship to the people he writes about The Globe and Mail Lemon Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production This brand new edition of the bestselling guide contains updated information on secret service bulletins that can save you money Phil describes sales and service scams lists which vehicles are factory goofs and sets out the prices you should pay As Canada s automotive Dr Phil for over 40 years Edmonston pulls no punches His Lemon Aid is more potent and provocative than ever Phil Edmonstons Lemon Aid Guide 2004 New and Used SUVs Phil

Edmonston,2003-12 Competition Problems in Liberalized Telecommunications Milena Stoyanova,2008-01-01 This innovative study of the role of competition law in the telecommunications industry starts from a classic perspective While in principle regulation benefits social welfare and efficient allocation of resources past regulatory experience shows that regulation can be flawed and lead to welfare harm rather than good In the telecommunications industry specifically inappropriately designed sector specific remedies and regulatory delays in the introduction of new telecommunications services can hold up the development of the market towards effective competition and could incur considerable welfare losses In addition conventional antitrust analysis still lags behind the dynamic nature of the electronic communications markets Milena Stoyanova sets out to establish a new understanding of the role of sector specific regulation and competition law enforcement in the electronic communications sector addressing such questions as the following and Why a new regulatory framework and Are sectoral regulation and competition law enforcement mutually exclusive or complementary and Why should electronic communications markets be regulated to conform to competition law principles and What does competition law add to sector specific regulation and What is the relationship or proportion between regulation and competition law enforcement An overview of the telecommunications liberalization process initiated at European Community level reveals such problems as a divergent approach of national regulatory authorities in the application of one and the same norms inability of competition authorities to rightly assess the technicalities underlying a competition problem and difficulty in carrying out a periodical oversight of compliance with the competition law remedies The author discusses the legal basis and rationale for the application of the essential facility doctrine to the electronic communications sector and argues for new regulatory responses to the emergence of collective dominant firms in an oligopolistic setting and to the potential of multifirm conduct to restrict competition through price squeezing and other tactics The book concludes with a specific case

study on the harmonisation of recent Bulgarian legislation with the European Community sector specific and competition law regimes and proposes the electronic communications sector Effective competition in the electronic communications market is crucial for securing the dynamic role of the entire information and communications technologies sector of which electronic communications form the largest segment The sound and well informed recommendations in this book ably address common and persistent problems making *Competition Problems in Liberalized Telecommunications* a forward looking mainstay for practitioners and other professionals involved in all aspects of the field

Lemon-Aid New Cars and Trucks 2013 Phil Edmonston, 2012-12-01 Canada's automotive Dr Phil says there's never been a better time to buy a new car or truck For deals on wheels 2013 will be a perfect storm There's never been a better time to buy a new car or truck thanks to a stronger Canadian dollar a worldwide recession driving prices downward and a more competitive Japanese auto industry that's still reeling from a series of natural disasters In addition to lower prices and more choices 2013 car buyers will see more generous cash rebates low financing rates bargain leases and free auto maintenance programs Buy sell or hold Which cars and trucks are wallet friendly and can easily last 15 years Which vehicles offer the most features to best accommodate senior drivers Do ethanol and hybrid fuel saving claims have more in common with Harry Potter than the Society of Automotive Engineers Is GM's 2013 Volt electric car destined to become an electric Edsel These questions and more are answered in this informative guide Learning in Groups David Jaques, Gilly Salmon, 2007-01-24 Learning in groups rather than in formal lectures or presentations allows students to have greater scope to negotiate meaning and express themselves and their own ideas It also helps them to establish far more effective relationships not only with their tutors and trainers but with each other Yet many tutors and trainers find the leadership role required when working in groups difficult to perform satisfactorily and revert to their traditional role as subject expert and prime talker This handbook is a truly comprehensive guide for anyone involved in groupwork containing advice and practical exercises to develop group learning skills for both learners and tutors This new edition has been thoroughly updated containing valuable new material throughout on group learning and collaborating online action research and the role of reflection and emotional intelligence *Market Power in EU Antitrust Law* Luis Ortiz Blanco, 2011-12-02 The notion of market power is central to antitrust law Under EU law antitrust rules refer to appreciable restrictions of competition Article 101 1 Treaty on the Functioning of the European Union TFEU ex Article 81 1 EC Treaty the elimination of competition for a substantial part of the market Article 101 3 TFEU ex Article 81 3 EC dominant positions Article 102 TFEU ex Article 82

EC and substantial impediment to effective competition in particular by creating or reinforcing a dominant position Article 2 of the EU Merger Regulation At first sight only the concept of dominant position relates to market power but it is the aim of this book to demonstrate that the other concepts are directly linked to the notion of market power This is done by reference to the case law of the EU Courts and the precedents of the European Commission The author goes on to argue that for very good reasons clarity and enforceability among others the rules should be interpreted in this way Beginning with market definition the book reviews the different rules and the different degrees of market power they incorporate Thus it analyses the notion of appreciable restriction of competition to find a moderate market power obtained by agreement among competitors to be the benchmark for the application of Article 101 TFEU ex Article 81 EC It moves on to the concept of dominance under Article 102 TFEU ex Article 82 EC which is equivalent to substantial or significant market power and then focuses on the old and new tests for EU merger control Finally it addresses the idea of elimination of competition in respect of a substantial part of the market Article 101 3 TFEU ex Article 81 3 b EC in which the last two types of market power Article 102 TFEU ex Article 82 EC and EU Merger Regulation converge To exemplify this an in depth study of the notion of collective dominance is conducted The book concludes that a paradigm of market power exists under the EU antitrust rules that both fits with past practice and provides for a useful framework of analysis for the general application of the rules by administrative and even more importantly judicial authorities in the Member States under conditions of legal certainty
