

Scomposizione corpo farfallato

Per rimuovere il kit tubazioni (3) dal corpo farfallato ruotare in senso antiorario con molta prudenza i connetti di aspirazione per sganciarli dalle mollette di ritenzo.

Importante
Quando si rimuovono i connetti di aspirazione fare molta attenzione a non danneggiare la tubazione torcendola eccessivamente.

Scollegare il connettore del potenziometro (M) e rimuovere il kit tubazioni e connetti di aspirazione (3) con cablaggio (9). Per separare il cablaggio iniettori (9) dal kit tubazione (3) è necessario rimuovere le fascette (7) e scollegare i connettori degli iniettori (L). Il potenziometro (M) non è fornito singolarmente a ricambio. Per la regolazione e l'azzeramento del potenziometro vedere (Sez. D 4).

Ricomposizione corpo farfallato

Se il cablaggio iniettori (9) è stato separato dal kit tubazione (3) unirli fissandoli con le fascette (7) nei punti evidenziati in figura.

Note
Fare molta attenzione all'anello (G) che identifica il connettore dell'iniettore verticale. Collegare i connettori (L) ai rispettivi iniettori.

Montare i connetti del kit tubazione (3) sul corpo farfallato ruotandoli in senso orario.

Importante
Fare molta attenzione a non danneggiare i tubi di alimentazione del kit tubazione (3). Una volta montato controllare accuratamente che la tubazione non abbia screpolature o tagli.

Note
Durante la rotazione tenere premuti i connetti in modo da vincere la resistenza opposta dalle mollette del corpo farfallato.

Se è stato rimosso il gommino (16) rimontarlo sul connettore principale (A) inserendo i suoi lembi sopra gli angoli del connettore stesso. Collegare il connettore al potenziometro (M).

Disassembling the throttle body

To remove the tubes kit (3) from the throttle body, rotate the intake funnels gently in a counterclockwise direction to release them from their retaining clips.

Caution
Do not twist the tubes exceedingly during removal of the intake funnels, or the tubes will damage.

Disconnect the connector of the throttle position sensor (M) and remove tubes kit and intake funnels (3) together with the wiring (9). Before separating the injector (9) wiring from the tubes kit (3), remove the clips (7) and disconnect the injector connectors (L). The throttle position sensor (M) is not available separately as a spare part. See Sect. D4 for throttle position sensor setting and zero setting procedures.

Reassembling the throttle body

If you have separated the injector (9) wiring from the tubes kit (3), tie them together with suitable ties (7) at the locations shown in the figure.

Note
The connector of the vertical injector is identified by a ring (G). Ensure to connect each connector (L) to the matching injector.

Locate the funnels of the tubes kit (3) to the throttle body and twist clockwise to secure them in place.

Caution
Use great care to avoid damaging the delivery tubes of the tubes kit (3). Inspect the tube carefully for cracks or cuts after installation.

Note
Twist and push the funnels to aid engagement into the throttle body clips.

If removed, fit the rubber block (16) onto the main connector (A) by fitting its profile onto connector corners. Connect the connector to the throttle position sensor (M).
