Imagining Literacy Ramona Fernandez, 2010-01-01 Defining the common knowledge a literate person should possess has provoked intense debate ever since the publication of E D Hirsch s controversial book *Cultural Literacy What Every American Needs to Know* Yet the basic concept of common knowledge Ramona Fernandez argues is a Eurocentric model ill suited to a society composed of many distinct cultures and many local knowledges In this book Fernandez decodes the ideological assumptions that underlie prevailing models of cultural literacy as she offers new ways of imagining and modeling mixed cultural and non print literacies In particular she challenges the biases inherent in the encyclopedias of knowledge promulgated by E D Hirsch and others by Disney World s EPCOT Center and by the Smithsonian Institution In contrast to these she places the writings of Zora Neale Hurston Maxine Hong Kingston Gloria Anzaldua and Leslie Marmon Silko whose works model a cultural literacy that weaves connections across many local knowledges and many ways of knowing

Edutopia Winston Apple, 2003-10 For some time now we have been inundated with a steady stream of books and articles detailing the problems plaguing public education Edutopia goes beyond the criticisms to offer a comprehensive list of proposed reforms addressing the problems The general thrust of these proposals is to de regulate education removing elements of compulsion and giving students and parents the freedom to make meaningful choices with regard to the nature of their educational experiences The reforms proposed in Edutopia go well beyond quick fixes and fresh coats of paint to offer parents and students meaningful alternatives to the present system of public education in America

Critical Literacy Eugene F. Provenzo, Michael W. Apple, 2015-12-03 In *Critical Literacy* Eugene F Provenzo Jr challenges E D Hirsch s assumptions about culture and education Calling for a broader and more democratic vision than

Hirsch Provenzo critiques Hirsch's legacy up through the current conservative educational agenda for education which he argues denies not only the United States diversity but its democratic traditions of democratic participation. His book shows why critical faculties and skills of students are essential not only to the success of individual students but to their participation in a healthy democracy. Provenzo offers a list of 5,000 things every educated American ought to know, none of them the same items as those included on Hirsch's list in *Cultural Literacy*. Critical Literacy is essential reading for those concerned with our schools and the future of our children.
