A Grand Illusion An Essay On Europe Tony Judt:

A Grand Illusion? Tony Judt, 2011 Originally published New York Hill and Wang 1996 *An Analysis of Tony Judt's Postwar* Simon Young, 2017-07-05 Tony Judt was born in London in 1948 but spent most of his career in America He studied history at Cambridge and then earned his doctorate in France His first major writings were about France s historical left wing movements particularly the French Socialist Party **The Rebirth of Europe** Elizabeth Pond, 2000-08-01 This revised and updated paperback edition covers the introduction of the euro the fall of Milosevic and the impact of September 11 in European integration The rejuvenation of Europe as a totalitarian century ends and a global century begins is a remarkable story This book brings together the three dynamics of Europe s position at this extraordinary moment European monetary union the deepening of intra EU cooperation and the widening of the EU and NATO to take in central European members It looks at the broad political and policy implications of EMU and shows how the United States views this integration Elizabeth Pond a longtime observer of events in Europe and Russia sees these developments as the beginning of a new postnational European system that is replacing the centuries old nation state system She shows how belligerence and anarchy have faded away on the European continent as compulsory cold war cooperation becomes a habit and as French German reconciliation becomes the pattern for reconciliation between other old enemies She follows NATO s transformation into a reluctant peacemaker in Bosnia and the United States decision to remain a European power She describes the leap of faith needed to create European monetary union and charts the magnetic attraction of both NATO and the EU in shaping the democratic economic and social revolutions in central Europe She warns about the strains that will face the transatlantic relationship when the euro is on a par with the dollar as a reserve currency And she concludes by agreeing with former Polish foreign minister Wladyslaw Barteszewski that we are witnessing after the original birth of European consciousness a millennium ago the rebirth of Europe **The Pursuit of Europe** Anthony Pagden, 2022 The story of the evolution of the European project from the end of the Napoleonic Wars through to Brexit this is also the story of how and why it became possible to imagine that the diverse peoples of Europe might be united in a single political community Waging War and Making Peace Matthew D'Auria, Rolf Petri, Jan Vermeiren, 2024-12-02 The history of Europe is marked not only by violence and division but also by efforts to reduce the destructiveness of war In this volume the authors explore the meaning of Europe within war and peace discourses from the eighteenth to the twentieth centuries They examine imagined wars the post 1815 security order the portrayal of Russian and Muslim Others double standards in international law pacifist rhetoric and the role of Europe in war propaganda and resistance movements The authors demonstrate how both war and peace practices have shaped the concept of Europe over time **The Idea of Europe** Anthony Pagden, 2002-04-04 The creation of the European Union and the progressive integration of the European states has raised serious questions about the existence of a distinctive European identity Do the British share much in common with the French or the French with the Danes Will a unified Europe remain an

economic and political possibility with no greater cultural or affective foundations If there is something that distinguishes all Europeans what is it and how is it being changed by recent events This book addresses these questions in essays ranging from ancient Greece to the end of the twentieth century Their authors come from different intellectual backgrounds and represent differing intellectual traditions They discuss questions of politics religion commerce law language literature and affectivity Taken together they provide a powerful insight into the historical origins of the idea of Europe and into the future of the European Union

Rethinking Europe's Future David P. Calleo, 2011-12-06 Rethinking Europe's Future is a major reevaluation of Europe's prospects as it enters the twenty first century David Calleo has written a book worthy of the complexity and grandeur of the challenges Europe now faces Summoning the insights of history political economy and philosophy he explains why Europe was for a long time the world's greatest problem and how the Cold War's bipolar partition brought stability of a sort Without the Cold War Europe risks revisiting its more traditional history With so many contingent factors in particular Russia and Europe's Muslim neighbors no one Calleo believes can pretend to predict the future with assurance Calleo's book ponders how to think about this future The book begins by considering the rival lessons and trends that emerge from Europe's deeper past It goes on to discuss the theories for managing the traditional state system the transition from autocratic states to communitarian nation states the enduring strength of nation states and their uneasy relationship with capitalism Calleo next focuses on the Cold War's dynamic legacies for Europe an Atlantic Alliance a European Union and a global economy These three systems now compete to define the future The book's third and major section examines how Europe has tried to meet the present challenges of Russian weakness and German reunification Succeeding chapters focus on Maastricht and the Euro on the impact of globalization on Europeanization and on the EU's unfinished business expanding into Pan Europe adapting a hybrid constitution and creating a new security system Calleo presents three models of a new Europe each proposing a different relationship with the U S and Russia A final chapter probes how a strong European Union might affect the world and the prospects for American hegemony This is a beautifully written book that offers rich insight into a critical moment in our history whose outcome will shape the world long after our time

India'S Foreign Policy In A Changing Wor V P Dutt, 2009-11-01 This Book Takes Into Account All The Twists And Turns The Contradictions And The Currents And Countercurrent In International Politics And Recommends That Indian Foreign Policy Should Be Sensitive To The Duality Indeed The Triplity Of The Developing International Scenario

Europe and Its Others Paul Gifford, Tessa Hauswedell, 2010 The essays represent a selection of papers delivered at an international conference held under the title Europe and its Others Interperceptions Past Present Future at St Andrews University in June 2007 under the aegis of the Institute for European Cultural Identity Studies

Europe's Transformations Helen Wallace, Nikos Koutsiaras, George Pagoulatos, 2021 Europe's Transformations brings together a group of distinguished academics and practitioners to reflect on the current state of the EU and the many challenges that it faces The contributions

are prompted by the seminal work of Loukas Tsoukalis and his relentless provocations about the capabilities of the European process to meet these challenges *Sacral Kingship Between Disenchantment and Re-enchantment* Ronald G. Asch, 2014-07-01 France and England are often seen as monarchies standing at opposite ends of the spectrum of seventeenth century European political culture On the one hand the Bourbon monarchy took the high road to absolutism while on the other the Stuarts never quite recovered from the diminution of their royal authority following the regicide of Charles I in 1649 However both monarchies shared a common medieval heritage of sacral kingship and their histories remained deeply entangled throughout the century This study focuses on the interaction between ideas of monarchy and images of power in the two countries between the execution of Mary Queen of Scots and the Glorious Revolution It demonstrates that even in periods when politics were seemingly secularized as in France at the end of the Wars of Religion and in latter seventeenth century England the appeal to religious images and values still lent legitimacy to royal authority by emphasizing the sacral aura or providential role which church and religion conferred on monarchs **Christendom and European Identity** Mary Anne Perkins, 2015-02-06 This book critically explores the idea of Europe since the French Revolution from the perspective of intellectual history It traces the dominant and recurring theme of Europe as Christendom in discourse concerning the relationship of religion politics and society in historiography and hermeneutics and in theories and constructions of identity and otherness It examines the evolution of a grand narrative by which European elites have sought to define European and national identity This narrative the author argues maintains the existence of common historical and intellectual roots common values culture and religion The book explores its powerful legacy in the positive creation of a sense of European unity the ways in which it has been exploited for ideological purposes and its impact on non Christian communities within Europe The Idea of Europe Shane Weller, 2021-06-03 This book offers a new critical history of the idea of Europe from classical antiquity to the present day **Cold War Flashpoints** Cold War International History Project, 1998 Featuring new evidence on the Polish Crisis 1980 1981 Poland in the early Cold War the Sino American opening the Korean War the Berlin Crisis 1958 1962 **Bulletin** , 1998 **European Integration Since the 1920s** Mark Hewitson, 2024-10-14 Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they

also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union

Conflicted Memories Konrad Hugo Jarausch, Thomas Lindenberger, Annelie Ramsbrock, 2007 Despite the interest in general European history the European dimension is surprisingly absent from much of the writing of contemporary history In most countries the historiography on the 20th century is dominated by national perspectives This book focuses on the development of a shared conception of European history The Perfect Storm of the European Crisis Ruxandra Iordache, Dan Dungaciu, 2017-06-23 The most significant phenomenon occurring around us today is the European crisis As well as being a total social phenomenon as classical French sociologist mile Durkheim would have said it also affects all the levels of our lives be they political economic cultural or social Nothing remains untouched In other words it represents a perfect storm This volume brings together the contributions of twenty authors scientists from the Ion I C Br tianu Institute of Political Sciences and International Relations of the Romanian Academy in response to this challenge Using an expression that is becoming more abundantly associated with Europe namely the perfect storm the book decodes multiple layers of the crisis whether they relate to migrants terrorism Brexit the economic crisis of the Eurozone the Turkish challenge Russian pressures TTIP the resurrection of populism or the intermittent hysteria of the European media **Polish Literature and National Identity** Dariusz Skórczewski, 2020 A postcolonial study of Polish literature from Romanticism to the twenty first century *The Making of Dissidents* Victoria Harms, 2024-09-17 Before Hungary s transition from communism to democracy local dissidents and like minded intellectuals activists and academics from the West influenced each other and inspired the fight for human rights and civil liberties in Eastern Europe Hungarian dissidents provided Westerners with a new purpose and legitimized their public interventions in a bipolar world order The Making of Dissidents demonstrates how Hungary s Western friends shaped public perceptions and institutionalized their advocacy long before the peaceful revolutions of 1989 But liberalism failed to take root in Hungary and Victoria Harms explores how many former dissidents retreated and Westerners shifted their attention elsewhere during the 1990s paving the way for nationalism and democratic backsliding
