Building Services Procurement Christopher Marsh,2003-09-02 Procurers and contractors increasingly need practical guidance for the strategic procurement of building services Clients seeking to improve the delivery performance of the construction industry are increasingly using alternative procurement arrangements These modern arrangements attempt to deliver a more strategic approach to achieving value for money Yet little thought is ever given to the strategic importance of building services No other single aspect of a project will affect project success more than the timely delivery of a fully functioning services installation Beyond the normal considerations of time cost and quality building services have a series of unique requirements not normally considered For the first time these unique requirements are combined in a single text providing the reader with the definitive guide to building services procurement The text

reviews each of the major critical success factors and clearly explains the supporting processes that must be enacted to ensure success. It reviews the general nature of procurement systems and construction projects and then explores the increasing importance that building services play both in the construction process and in determining success for the client. Each significant stage within the procurement process is explored by explaining its importance and showing what decisions need to be made to develop a cohesive strategy. It concludes by giving a step by step guide to clearly develop and implement a building services procurement strategy.

Springer Handbook of Augmented Reality Andrew Yeh Ching Nee, Soh Khim Ong, 2023-01-01. The Springer Handbook of Augmented Reality presents a comprehensive and authoritative guide to augmented reality AR technology, its numerous applications and its intersection with emerging technologies. This book traces the history of AR from its early development, discussing the fundamentals of AR and its associated science. The handbook begins by presenting the development of AR over the last few years, mentioning the key pioneers and important milestones. It then moves to the fundamentals and principles of AR, such as photogrammetry, optics, motion and objects tracking, and marker based and marker less registration. The book discusses both software toolkits and techniques and hardware related to AR, before presenting the applications of AR. This includes both end user applications like education and cultural heritage and professional applications within engineering fields, medicine and architecture, amongst others. The book concludes with the convergence of AR with other emerging technologies such as Industrial Internet of Things and Digital Twins. The handbook presents a comprehensive reference on AR technology from an academic, industrial and commercial perspective, making it an invaluable resource for audiences from a variety of backgrounds.

Building Maintenance Brian J.B. Wood, 2009-09-28. Maintaining a building is expensive; it costs many times more to run a building over its lifetime than to build it. Yet maintenance is often not accorded the priority it warrants. A poorly maintained building will be a drain on resources and will impair building use, whereas a well maintained building will function smoothly and represent an appreciating asset to its owners. *Building Maintenance* is a core text on the technical aspects of maintenance for undergraduate degree students on built environment courses, particularly building surveying and facilities management. It addresses the who, what, where, when, how and why of maintenance activities and shows that maintenance should be considered seriously at the design stage. Extensive case studies illustrate what can go wrong, how to put matters right and how to get it right first time next time. A professional approach is required to building maintenance. By encouraging maintenance managers to stand back and take a strategic view of building maintenance alongside their day to day tasks, this book will help practitioners and students to achieve that.
