A Patterned Life Faith History And David Bebbington:

A Patterned Life Eileen Bebbington, 2014-10-20 David Bebbington one of the most influential historians working today is widely acknowledged as a world authority on religious history He is also recognized for having devised the Bebbington Quadrilateral as the standard definition of evangelicalism one of the most important global religious movements of the twenty first century In this lively study Eileen Bebbington who first met her husband as an undergraduate at the University of Cambridge over forty years ago paints a vivid portrait of the life and thought of this leading scholar Many who know Professor Bebbington s most celebrated books such as *Evangelicalism in Modern Britain* *Patterns in History* *The Mind of Gladstone* and *Victorian Religious Revivals* will be delighted to learn that his first such effort was actually *A History of the Ancient World with Which Is Incorporated Classical Mythology* a duly footnoted four volume work written at the age of nine *A Patterned Life* is much more than an account of the intellectual development of a preeminent historian it is a study of a life lived as a disciple of Jesus Christ a human and often humorous account of eccentricities an honest acknowledgment of trials and an inspiring witness to one person s efforts to integrate a deep earnest Christian faith with the best of modern thought

Christianity and the Unfinished Task F. Lionel Young, III, 2021-03-15 This book is a short introduction to one of the most remarkable transformations in the modern world that many people still do not know about In 1900 more than 80 percent of the world s Christians lived in Europe and North America and nearly all of the world s missionaries were sent out from the West to the rest In a dramatic turn of events Christianity experienced a decidedly Southern shift during the twentieth century Today nearly 70 percent of the world s 2.5 billion Christians live in Africa Asia and Latin America while nearly half of all missionaries are being sent out into all the world from places like Brazil Ethiopia and South Korea This book is intended to

change the way readers think about the church and challenge the way Western Christians engage in contemporary missions

The Plymouth Brethren Massimo Introvigne, 2018 The book offers the first scholarly treatment of the Plymouth Brethren Christian Church PBCC one of the largest denominations within the Brethren movement that originated with John Nelson Darby and a 19th century revival in the British Isles The book discusses the Brethren movement in general the schisms the beliefs and daily life of the PBCC and the controversies surrounding its practice of strict separation from non members of the Church

Making Evangelical History Andrew Atherstone, David Ceri Jones, 2019-04-08 This volume makes a significant contribution to the history of ecclesiastical histories with a fresh analysis of historians of evangelicalism from the eighteenth century to the present It explores the ways in which their scholarly methods and theological agendas shaped their writings Each chapter presents a case study in evangelical historiography Some of the historians and biographers examined here were ministers and missionaries while others were university scholars They are drawn from Anglican Baptist

Congregationalist Methodist Presbyterian Fundamentalist and Pentecostal denominations Their histories cover not only transatlantic evangelicalism but also the spread of the movement across China Africa and indeed the whole globe Some wrote for a popular Christian readership emphasising edification and evangelical hagiography others have produced weighty monographs for the academy These case studies shed light on the way the discipline has developed and also the heated controversies over whether one approach to evangelical history is more legitimate than the rest As a result this book will be of considerable interest to historians of religion

Discovering the End of Time Donald Harman Akenson, 2016-04-11 A masterful study of the origins of apocalyptic millennialism which lies at the heart of evangelical Christianity

The Oxford History of Protestant Dissenting Traditions Mark A. Noll, Timothy Larsen, Michael Ledger-Lomas, 2017 The five volume Oxford History of Dissenting Protestant Traditions series is governed by a motif of migration out of England It first traces organized church traditions that arose in England as Dissenters distanced themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and royal supremacy but then follows those traditions as they spread beyond England and also traces newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier English Dissent but that have often defined a trajectory of influence independent ecclesiastical organizations The Oxford History of Protestant Dissenting Traditions Volume III considers the Dissenting traditions of the United Kingdom the British Empire and the United States in the nineteenth century It provides an overview of the historiography on Dissent while making the case for seeing Dissenters in different Anglophone connections as interconnected and conscious of their genealogical connections The nineteenth century saw the creation of a vast Anglo world which also brought Anglophone Dissent to its apogee Featuring contributions from a team of leading scholars the volume illustrates that in most parts of the world the later

nineteenth century was marked by a growing enthusiasm for the moral and educational activism of the state which plays against the idea of Dissent as a static purely negative identity This collection shows that Dissent was a political and constitutional identity which was often only strong where a dominant Church of England existed to dissent against *The Narrative of the Good Death* Mary Riso,2016-03-09 The Christian idea of a good death had its roots in the Middle Ages with ars moriendi featuring reliance on Jesus as Savior preparedness for the life to come and for any spiritual battle that might ensue when on the threshold of death and death not taking place in isolation Evangelicalism introduced new features to the good death with its focus on conversion sanctification and an intimate relationship with Jesus Scholarship focused on mid nineteenth century evangelical Nonconformist beliefs about death and the afterlife is sparse This book fills the gap contributing an understanding not only of death but of the history of Methodist and evangelical Nonconformist piety theology social background and literary expression in mid nineteenth century England A good death was as central to Methodism as conversion and holiness Analyzing over 1 200 obituaries Riso reveals that while the last words of the dying pointed to a timeless experience of hope in the life to come the obituaries reflect changing attitudes towards death and the afterlife among nineteenth century evangelical Nonconformist observers who looked increasingly to earthly existence for the fulfillment of hopes Exploring tensions in Nonconformist allegiance to both worldly and spiritual matters this book offers an invaluable contribution to death studies Methodism and Evangelical theology Perfecting Perfection Robert Webster,2015-11-11 Henry D Rack is one of the most profound historians of the Methodist movement in modern times He has spent a lifetime researching and writing about the rise and significance of John Wesley and his Methodist followers in the eighteenth century and has also uncovered the historical significance of the Methodist Church in the nineteenth and twentieth centuries Collected here in this volume are thirteen essays honoring the life and scholarship of Dr Rack from a host of international scholars in the field The topics range from Wesley s view of grace in the eighteenth century to the dynamic intersection of the Methodist and Tractarian movements in the nineteenth century A bibliographical essay of Rack s most prominent publications in the field of Methodist studies is also provided In the end the collection of essays offered here in honor of Dr Rack will be engaging and provocative for considering Methodist Studies in the present and future generations

Lord for the Body James Opp,2005-12-19 In the early 1920s English Canadians were captivated by the urban campaigns of faith healing evangelists Crowds squeezed into local arenas to witness the afflicted slain in the spirit casting away braces and crutches Professional faith healers although denounced by critics as promoting mass hypnotism gained notoriety and followers in their call for people to choose the Lord for the Body
