The Emergence of Christian Science in American Religious Life Stephen Gottschalk, 2024-07-26 Christian Science is one of only two indigenous American religions the other being Mormonism Yet it has not always been examined seriously within the context of the history of religious ideas and the development of American religious life Stephen Gottschalk fills this void with an examination of Christian Science's root concepts the informing vision

and the distinctive mission as formulated by its founder Mary Baker Eddy Concentrating on the quarter century preceding Eddy's death a period of phenomenal growth for Christian Science Gottschalk challenges the conventional academic view of the movement as a fringe sect He finds instead a serious and distinctive though radical religious teaching that began to flower just as orthodox Protestantism began to fade He gives a clear and detailed account of the rancorous controversies between Christian Science and the various mind cure and occult movements with which it is often associated and contends that Christian Science appealed to disenchanting Protestants because of its pragmatic quality a quality that relates it to the mainstream of American culture This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 SELF SEEKING Dennis Waite,2025-10-14 Are you interested in Advaita and want to become enlightened How should you go about it What will happen if you do How can you know what works and what doesn't In particular how should you go about finding a teacher What books should you read Author Dennis Waite answers all these questions and more having communicated with many teachers and seekers over the past 25 years accumulated around 1500 books on Advaita and written more than 10 books himself In these pages you will learn how to identify false teachers by spotting irrelevance pitfalls fallacies and mystical mumbo jumbo You will be warned against grandiose marketing claims spiritual catchphrases unclear language and poetry and why you should be wary of various transcriptions and translations For instance the styles of Neo Vedanta Neo Advaita Direct Path and satsang in general are compared with the original traditional teaching and the relative values of scriptures psychology social media and even AI are investigated An attempt has been made to research all living teachers and organizations that claim to be teaching Non Duality in the West and establish whether it is really Advaita Do they help you to seek the Self or are they simply self seeking The Emergence of Christianity Cynthia White,2010-10-01 This brief survey text tells the story of early Christianity Cynthia White explores the emergence of Christianity in Rome during the first four centuries of the Greco Roman empire from the first followers of Jesus Christ to conflicts between Christians and Jewish kings under Roman occupation to the torture of Christian followers Diocletian's reforms and Constantine's eventual conversion to monotheism which cemented Christianity's status as the official religion of Rome The text's chapters will integrate key pedagogy including introductions study questions textboxes photos maps suggested readings and a glossary and timeline **The Emergence of Consciousness** Anthony Freeman,2001 A collection of essays on the relation between the conscious mind and the body In this text philosopher Robert Van Gulick gives a clear overview and comparison on emergent and reductive approaches while others discuss more detailed aspects
