A Fairy's Tale Fran Laurie Olsen, 2015-09-28 When a flower fairy eager to experience as many emotions as possible decides to switch places with a young human child whom she has come to love nothing could have prepared her for what she would experience being born of human parents and growing up in a world of straight lines and harsh corners of sorrow grief human ignorance and even more human judgement Although the memory of the fairy realm and her former life quickly fades she never quite fits in feeling a connection to the natural world that always sets her apart With insight and wisdom born of that forgotten existence she goes about the human business of growing up getting married and raising a family of her own blissfully unaware of everything she had lost And then out of nowhere a sentence pops into her head fully formed and everything changes I have lived most of my life as a flower fairy a daisy flower fairy to be precise These words start it all in motion for Author Fran Laurie Olsen bringing things back to the surface for her and beginning a journey of self discovery that puts everything into a new perspective Harmony and Creativity Beauty and Love Nature and the not yet visible world all these things and more are connected and impacted by how we view them and how we view ourselves Fran Laurie Olsen offers insights and guidance that will lighten your spirit put you in touch with the natural word and help you put all the pieces together in a way that finally makes sense with her enchanting and insightful offering *Soul Journeys Series A Fairy's Tale* transformationspapillon com
