**A First Dictionary and Grammar of Láadan** Suzette Haden Elgin, 1985      *A Third Dictionary & Grammar of Láadan* Suzette Haden Elgin, Jeanne Gomoll, Diane Martin, 2019-08-09 This book includes material from 1st Dictionary and Grammar 1988 and merges it with new vocabulary created for the Láadan website Elgin died in 2015 but interest persists in the language she created in 1982 embodied in her SF Native Tongue series Láadan is a feminist constructed language created by Elgin to test the Sapir Whorf hypothesis that the language one speaks influences the way one thinks i.e. can a language expressing the views of women shape a culture Láadan includes morphemes that require speakers to own their own perceptions words that indicate for instance whether a statement comes from personal observation a trusted source or an unreliable third party Nowadays Elgin might argue that accusations of fake news would be impossible in Láadan This language also encodes speakers intentions into their sentences eliminating another form of micro aggression the rude comment that is passed off as just a joke All proceeds will go to the Science Fiction Poetry Association      *A Third Dictionary & Grammar of Láadan* Suzette Haden Elgin, 2020      Emily Dickinson, a Poet's Grammar Crisanne Miller, 1987 In this inventive work on Emily Dickinson's poetry Crisanne Miller traces the roots of Dickinson's unusual compressed ungrammatical and richly ambiguous style finding them in sources as different as the New Testament and the daily patterns of women's speech Dickinson writes as she does both because she is steeped in the great patriarchal texts of her culture from the Bible and hymns to Herbert's poetry and Emerson's prose and because she is conscious of writing as a woman in an age and culture that assume great and serious poets are male Miller observes that Dickinson's language deviates from normal construction along definable and consistent lines consequently it lends itself to the categorical analysis of an interpretive grammar such as the one she has constructed in this book In order to facilitate the reading of Dickinson's poems and to reveal the values and assumptions behind the poet's manipulations of language Miller examines in this grammar how specific elements of the poet's style tend to function in various contexts Because many especially modernist poets use some of the same techniques the grammar throws light on the poetic syntax of other writers as well In the course of her analysis Miller draws not only on traditional historical and linguistic sources but also on current sociolinguistic studies of gender and speech and on feminist descriptions of women's writing Dickinson's language she concludes could almost have been designed as a model for twentieth century theories of what a women's language might be As a critical examination of the relationship between linguistic style and literary identity in America's greatest woman poet Emily Dickinson *A Poet's Grammar* provides a significant addition to feminist literary studies      The Cambridge History of the English Language Richard M. Hogg, Norman Francis Blake, Suzanne Romaine, Roger Lass, R. W. Burchfield, 1992 The volumes of The Cambridge history of the English language reflect the spread of English from its beginnings in Anglo Saxon England to its current role as a multifaceted global language that dominates international communication in the 21st century      **Women of Color and the Multicultural**

**Curriculum** Liza Fiol-Matta, Mariam Chamberlain, 1994 A A A The product of 13 curriculum projects that involved several hundred educators nationwide this volume provides faculty and administrators with a guide to multicultural curricular change especially with respect to women While women represent over half of the college students on campus they are still represented only minimally in the allegedly mainstream curriculum Women of color are far less visible in the curriculum than white women A A A Both the process and the results of a Ford Foundation funded project are presented here in a format that allows browsing and promotes reading straight through The volume is divided into three major sections the first of which highlights the actual process of faculty transformation and administrative support essential to curricular changes as it occurred on two of the participating campuses U C L A and George Washington University Extensive multidisciplinary faculty development syllabi are provided A A A Section Two contains 37 transformed undergraduate course syllabi for courses in sociology American history and literature and more with brief essays describing professors encounters with teaching the new texts Section Three is an invaluable interdisciplinary guide to teaching about Puerto Rican women prepared by a team of scholars at SUNY Albany It provided information about Puerto Rican women inside and outside Puerto Rico as well as teaching strategies for integrating such information into the traditional curriculum A A A This volume shows that essential educational change to meet the diversity of U S students may be somewhat slower than one would wish and more difficult but it is complex challenging and intellectually exciting

**Fictional Languages in Science Fiction Literature** Israel A. C. Noletto, 2024-05-31 Fictional Languages in Science Fiction Literature surveys a large number of fictional languages those created as part of a literary world to present a multifaceted account of the literary phenomenon of glossopoesis language invention Consisting of a few untranslated sentences exotic names or even fully fledged languages with detailed grammar and vocabulary fictional languages have been a common element of English language fiction since Thomas More's Utopia 1516 Different notions of the functions of such fictional languages in narrative have been proposed as rooted in phonaesthetics and contextual features or as being used for characterisation and construction of alterity Framed within stylistics and informed by narrative theory literary theory literary pragmatics and semiotics this study combines previous typologies into a new 5 part reading model comprising unique analytical approaches tailored to science fiction's specific discourse and style exploring the relationship between glossopoesis world building storytelling interpretation and rhetoric both in prose and paratexts

**Women and Language in Transition** Joyce Penfield, 1987-08-01 This collection of essays deals with the interplay of language and social change asking the question How can language and society be made gender equal The contributors examine the critical role of language in the lives of white women and women of color in the United States Since language pervades many dimensions of women's lives this study takes a multi disciplinary approach to the issues considered The volume is divided into three sections The first Liberating Language focuses on the active role women had in altering the extent of linguistic sexism in English during the 1970s A second section Identity Creation deals with the

alteration of that portion of language which serves to name women and their experiences The final section Women of Color offers a rare and timely look at the particular problems confronted by minority women It argues that women of color have different problems and different links to language than white middle class women **The WomanSource Catalog & Review** Ilene Rosoff,1995 Pronoun Envy Anna Livia,2001 Controversy over gendered pronouns for example using the generic he has been a staple of feminist arguments about patriarchal language over the last 30 years and is certainly the most contested political issue in Western feminist linguistics Most accounts do not extend beyond policy issues like the official institution of non sexist language In this volume Anna Livia reveals continuities both before and after the sexist language reform movement and shows how the creative practices of pronoun use on the part of feminist writers had both aesthetic and political ends Livia uses the term pronoun envy ironically to show that rather being a case of misguided envy battles over gendered language are central to feminist concerns Livia examines a broad corpus of written texts in English and French concentrating on those texts which problematize the traditional functioning of the linguistic gender system They range from novels and prose poems to film scripts and personal testimonies and in time from the 19th century to the present Some withhold any indication of gender others have non gendered characters Livia's goal is two fold to help bridge the divide between linguistic and literary analysis and to show how careful study of the manipulation of linguistic gender in these texts informs larger concerns This fresh and highly interdisciplinary work lies at the intersection of several vital areas including language and gender sociolinguistics and feminist literary analysis
